1. GENERAL INFORMATION ON THE IMPLEMENTATION OF THE TAKEOVER OFFER

1.1 Legal basis

The purchase offer (the "**Offer**" or the "**Takeover Offer**") set out in this offer document (the "**Offer Document**") and made by Orchid Lux HoldCo S.à r.l., a limited liability company (*société à responsabilité limitée*) incorporated under the laws of Luxembourg, with its registered office in Luxembourg, Grand Duchy of Luxembourg, registered with the Luxembourg Trade and Companies Register (*Registre de Commerce et des Sociétés*) under B279419 (the "**Bidder**"), is a voluntary public takeover offer for the acquisition of all no-par value bearer shares (*auf den Inhaber lautende Stückaktien*) not directly held by the Bidder, each representing a pro rata amount of EUR 1,00 of the share capital, including all ancillary rights, in particular the entitlement to profit, existing at the time of settlement of this Offer (each no-par value bearer share individually an "**OHB Share**" and collectively the "**OHB Shares**"), in OHB SE, a European Company (*Societas Europaea – SE*) incorporated under the laws of Germany, with its registered office in Bremen, Germany, registered with the commercial register (*Handelsregister*) of the Local Court (*Amtsgericht*) of Bremen under HRB 30268 HB ("**OHB**", and together with its subsidiaries the "**OHB Group**"). The shareholders of OHB will hereafter be referred to as "**OHB Shareholders**".

The Offer is being made exclusively pursuant to the laws and regulations of Germany, in particular in accordance with the German Securities Acquisition and Takeover Act (*Wertpapiererwerbs- und Übernahmegesetz – "WpÜG"*) and the German Regulation on the Content of the Offer Document, the Consideration to be Granted in Takeover Offers and Mandatory Takeover Offers and the Exemption from the Obligation to Publish and Launch an Offer (*WpÜG-Angebotsverordnung – "WpÜG Offer Regulation"*), as well as a number of provisions of the securities laws of the United States of America ("**United States**") applicable to cross-border takeover offers.

1.2 Special information for OHB Shareholders whose seat or place of residence is in the United States or elsewhere outside of Germany

The Offer relates to shares in a European Company (*Societas Europaea – SE*) incorporated under the laws of Germany and is subject to the statutory provisions of the Federal Republic of Germany on the implementation of such an offer. The Offer will not be submitted to the review or registration procedures of any securities regulator outside of Germany and has not been approved or recommended by any such securities regulator.

OHB Shareholders whose place of residence, seat, or place of habitual abode is in the United States (the "**U.S. Shareholders**") should note that this Offer is made in respect of securities of a company that is a "foreign private issuer" within the meaning of the U.S. Securities Exchange Act of 1934, as amended, (the "**Exchange Act**") the shares of which are not registered under Section 12 of the Exchange Act. The Offer is being made in the United States in reliance on the Tier 1 exemption from certain requirements of the Exchange Act and is governed principally by disclosure and other regulations and procedures in Germany, which are different from those in the United States. To the extent that the Offer is subject to U.S. securities laws, such laws only apply to OHB Shareholders whose place of residence, seat, or place of habitual abode is in the United States, and no other person has any claims under such laws.

The Bidder and/or persons acting jointly with the Bidder and/or their subsidiaries may acquire, or make arrangements to acquire, OHB Shares in a manner other than pursuant to the Offer on or off the stock exchange during the Offer's term, provided that such acquisitions or acquisition arrangements are made outside of the United States and comply with the applicable German statutory provisions, in particular the WpÜG, and provided that the Offer Price is increased, to the extent required pursuant to the WpÜG and the WpÜG Offer Regulation, to correspond with any higher consideration paid outside of the Offer. Information about such acquisitions or acquisition arrangements will be published in German pursuant to section 23 para. 2 WpÜG. The information will also be published in a non-binding English translation on the Bidder's website at www.orchid-offer.com.

For OHB Shareholders whose place of residence, seat, or place of habitual abode is outside of Germany, it may be difficult to enforce rights and claims arising under the laws of a country other than those of their country of residency. This is due to the fact that the Bidder has its registered office in the Grand Duchy of Luxembourg and some or all of their officers and directors may be residents of a country other than these shareholders' country of residency. It may not be possible for the OHB Shareholder to sue in a court in their own country of residency a foreign company or its officers or directors for violations of the laws applicable in the OHB Shareholder's country of residency. Furthermore, it may be difficult to compel a foreign company to subject themselves to a court judgment issued in the relevant OHB Shareholder's country of residency.

1.3 Publication of the decision to launch the Offer

On 7 August 2023, the Bidder published its decision to launch the Offer in accordance with section 10 para. 1 sentence 1, para 3 WpÜG. This publication by the Bidder is available in German and as a non-binding English translation on the internet at www.orchid-offer.com.

The Bidder and the persons acting jointly with the Bidder within the meaning of section 2 para. 5 WpÜG do not assume any responsibility for whether the acceptance of the Offer outside of Germany, the Member States of the European Union and the European Economic Area, and the United States is permitted under the applicable statutory provisions.

All information and statements on intentions, as well as all other information in this Offer Document are based on the knowledge or intentions of the Bidder at the time of publication of this Offer Document. Such forward-looking statements are based on current plans, estimates, and projections that the Bidder and the Bidder-Controlling Shareholders have made to the best of their knowledge, but they do not make any claims as to their future accuracy. Forward-looking statements involve risks and uncertainties, most of which are difficult to predict and are generally beyond the control of

The Management Board is authorized to determine – subject to the Supervisory Board's approval – the extent and nature of the option rights with regard to Authorized Capital 2020 and the other conditions of the share issuance.

On 7 August 2023, OHB's Management Board – with the Supervisory Board's approval – used the authorization under Authorized Capital 2020 and resolved to increase the share capital under exclusion of the statutory subscription rights of existing OHB Shareholders from EUR 17,468,096.00 to EUR 19,214,905.00 by issuing 1,746,809 new OHB Shares (equivalent to approx. 10.00% of OHB's present share capital and voting rights). The OHB Group is a German space and technology group pursuing activities in different areas of space-related high technology. The OHB Group has operations in key member countries of the European Union (EU) and the European Space Agency ESA. This fosters the successful participation in projects for national and European space missions. Overall, the OHB Group employs more than 3,000 employees at 15 locations across Europe. The individual subsidiaries of the OHB Group are able to retain their individuality and corporate culture within the Group, while still being bound by the decisions made by the

Group holding company and being able to harness synergistic benefits. OHB does not engage in any operating business itself but supports the subsidiaries of the OHB Group in various areas, particularly sales and marketing activities, participation in trade fairs, human resources, procurement, the installation and maintenance of the IT infrastructure, and digitalization, thus assuming the role of an active holding company. The OHB Group's portfolio of products and services ranges from realizing satellite systems for Earth observation, navigation, telecommunications, research, and reconnaissance, to planning and carrying out space exploration missions, all the way to developing systems for human spaceflight.

OHB divides its business into three segments: Space Systems, Aerospace and Digital.

- *SPACE SYSTEMS*: This segment focuses on developing and executing space projects. In particular, it is responsible for developing and assembling satellites for navigation, research, communications, Earth and weather observation, and reconnaissance, including scientific payloads for low and geostationary orbits. The OHB Group companies assigned to this segment are involved in various institutional projects that help to provide added value in everyday life (e.g. weather data, navigation) or information and data that enable the changes on the Earth to be analyzed at an early stage and adverse developments to be addressed in a timely manner (e.g. monitoring of CO₂ emissions). Specifically, earth observation satellites are developed, built, and tested. They collect a wide range of environmental data and thus generate significant added value for scientists and political decision-makers. The tasks performed by the satellites of the OHB Group include addressing the increasingly urgent problem of climate change and associated effects such as the melting of polar ice, the scope for improving resource management, and the detection of pollution in waters and other habitats. Reconnaissance satellites and broadband wireless transmission of image data form core technologies for security and reconnaissance. The exploration segment works on studies and models for exploring our solar system, primarily the moon, Mars, and the asteroids. Its human space flight activities chiefly entail projects for the assembly and outfitting of the International Space Station ISS and the future Gateway space station.
- *AEROSPACE*: This segment is primarily responsible for assembling and developing aviation and space products. In this area, the OHB Group has positioned itself as a significant supplier of aerospace structures; according to its own statements in the 2022 annual report, among other things, it is the largest German supplier of components for the Ariane program and an established producer of components for satellites and aircraft. The Group companies have also launched an

initiative to gain system skills in small launchers to complement their existing capabilities.

- *DIGITAL*: The focus of the Digital segment is on ground-based space systems (e.g., mechatronic systems for antennas and radio and optical telescopes), the operation of space-borne satellite systems, digital applications based on satellite data as well as information technology and cybersecurity. The OHB Group is thus building a foothold in these fast-growing market segments and tapping commercial markets that are subject to cycles differing from those in the institutional satellite and launcher market. Process control technology is responsible for the reliable monitoring and control of the electric traction energy supply for trains on the entire network operated by Deutsche Bahn. In addition, it provides encryption systems for Deutsche Bahn's track field infrastructure.

In fiscal year 2022, according to its consolidated annual financial statements, OHB generated revenues of approximately EUR 944.5 million (2021: approximately EUR 905.0 million) and EBIT of approximately EUR 63.2 million (2021: approximately EUR 47.0 million).

7.4 OHB's Management Board and Supervisory Board

OHB's Management Board (the "**Management Board**") consists of one or more members; pursuant to article 8 para. 2 of OHB's articles of association, the members of the Management Board are determined by OHB's Supervisory Board (the "**Supervisory Board**").

At the present time, the Management Board consists of six members, namely:

- Marco R. Fuchs (Chief Executive Officer)
- Dr. Lutz Bertling (member of the Management Board responsible for digitalization, M&A and the DIGITAL segment)
- Dr. Markus Moeller (member of the Management Board responsible for business development and strategy)
- Klaus Hofmann (Chief Human Resources Officer)
- Kurt Melching (member of the Management Board responsible for finance)
- Daniela Schmidt (member of the Management Board responsible for sustainability, integrity, legal, and corporate security)

Pursuant to article 11 para. 1 of OHB's articles of association, the Supervisory Board consists of five members. At the present time, the Supervisory Board consists of the following five members:

- Robert Wethmar (Chairman)
- Ingo Kramer (deputy chairman)
- Christa Fuchs
- Dr.-Ing. Hans Königsmann
- Reimund Wulf

7.5 Persons acting jointly with OHB

At the time of publication of this Offer Document, according to the information provided to the Bidder by OHB, the companies listed in **Annex 5** of this Offer Document are subsidiaries of OHB, each of which is therefore deemed to be a person acting jointly with OHB pursuant to section 2 para. 5 sentence 3 WpÜG.

Furthermore, at the time of publication of this Offer Document, the companies and persons pursuant to section 2 para. 5 sentence 3 WpÜG listed in **Annex 6** of this Offer Document are deemed to be persons acting jointly with OHB. According to the information provided to the Bidder by OHB, OHB is a direct or indirect subsidiary of the companies and persons listed in **Annex 6 a)**; each of these companies and persons is therefore deemed to be a person acting jointly with OHB within the meaning of section 2 para. 5 sentence 3 WpÜG. According to the information provided to the Bidder by OHB, the companies listed in **Annex 6 b)** are subsidiaries of the companies and persons listed in Annex 6 a) (without being subsidiaries of OHB at the same time); they are therefore also deemed to be persons acting jointly with OHB within the meaning of section 2 para. 5 sentence 3 WpÜG. Beyond that, based on the information available to the Bidder at the time of publication of this Offer Document, there are no other persons deemed persons acting jointly with OHB within the meaning of section 2 para. 5 WpÜG.

7.6 Information on the statements of OHB's Management Board and Supervisory Board

Pursuant to section 27 para. 1 WpÜG, both the Management Board and the Supervisory Board of OHB are obliged to issue a reasoned statement on this Offer and on any amendments of this Offer. OHB's Management Board and Supervisory Board must publish every such statement without undue delay after the transmission of this Offer Document and any amendments made to this Offer Document by the Bidder.

8. BACKGROUND OF THE OFFER

8.1 General and strategic background of the Offer

Over the past few decades, OHB has shown a remarkable development from a local industrial company based in Bremen to a leading German aerospace and technology company that successfully provides its national and international customer base with a range of products and services along the entire value creation chain of the aerospace industry.

The Bidder believes that the aerospace sector, in which OHB operates, is currently faced with making significant strategic decisions due to the sector's increased strategic relevance and higher demand for new and innovative aerospace applications and technologies. On the one hand, this development offers excellent prospects for growth while, on the other hand, it requires significant investments, luring industrial market actors from all over the world into the European market, which will intensify competition considerably over the long term and will force the existing market players to deal with new challenges.

OHB's group strategy dubbed "OHB 2025 – Shaping the future" defines the cornerstones for further growth. The purpose of this strategy, which was first resolved in 2019 and re-confirmed following a review in 2021, is to pursue various development steps across all three segments in order to address OHB's global challenges. In this context, the main goals are to continue to expand OHB's activities, to strengthen its role as an end-to-end system provider, to evolve the satellite and system portfolio, to grow expertise in downstream applications, to expand OHB's customer base, and to improve the overall system capabilities of launch vehicles. Since the aerospace industry is increasingly investment-heavy, significant investments have to be made in new technologies, processes and staff in order to be able to achieve the strategy successfully. The Bidder will provide capital to OHB by way of the capital increase described in section 6.6.

Achieving the strategy and its ambitious objectives in an increasingly competitive and investment-heavy market environment requires a multi-year value creation plan, which is more difficult to realize in a public company with a strong focus on quarterly results. Therefore, the Bidder believes that the long-term growth strategy pursued by OHB can be supported by a desired delisting of the OHB Shares. Once the company is privately owned, the Management Board will be able to better implement the corporate strategy. As the Bidder has no operating business of its own, synergies, particularly cost synergies, are not intended to be realized.

8.2 Investor Agreement

On 7 August 2023, the Bidder, the Family Shareholders and OHB entered into an investor agreement (the "**Investor Agreement**"), in which certain terms of this Offer and its implementation, as well as the ordinary course of business until the consummation of the Offer and certain other undertakings are set down. The material provisions of the Investor Agreement are summarized below. The Investor Agreement contains certain statements of the Bidder regarding its intentions, which are stated in section 9.

8.2.1 Material Offer Conditions

In the Investor Agreement, the Bidder undertakes to make a voluntary public takeover offer to all OHB Shareholders at the Offer Price stated in section 4 of this Offer Document and with the Offer Conditions outlined in section 12.1 of this Offer Document.

8.2.2 Recommendation of and support by the Management Board and the Supervisory Board

OHB has represented that the Management Board and the Supervisory Board will review this Offer in compliance with their duties and will recommend in the reasoned statement pursuant to section 27 para. 1 WpÜG that the shareholders of OHB accept the Offer.

OHB has also undertaken to not actively solicit competing offers. In the event that a third party submits a competing offer with representations made by relevant bidder that are equivalent to those made by the Bidder in the Investor Agreement and in which a higher offer price per OHB Share is offered (a "**Superior Offer**"), OHB may be entitled to terminate the Investor Agreement unless the Bidder submits an improved offer within ten business days after publication of the offer document for such a Superior Offer.

8.2.3 Undertakings and joint actions in connection with the Takeover Offer

The parties to the Investor Agreement have agreed on certain undertakings and representations to the effect that the business of OHB is to be managed in the ordinary course, which includes the undertaking by OHB not to issue any new shares or instruments carrying subscription rights for OHB Shares. This will not affect the Bidder's separate undertaking to subscribe 1,746,809 new OHB Shares in the context of the capital increase described in section 6.6 of this Offer Document.

The parties to the Investor Agreement have also agreed to cooperate with each other in connection with this Offer, in particular with regard to obtaining the necessary merger control and foreign investment clearances.

8.2.4 Future cooperation

The parties to the Investor Agreement have agreed on certain guidelines regarding the future cooperation between the Bidder and OHB. The Investor Agreement contains certain intentions and undertakings in this regard that are outlined at length in section 9 of this Offer Document.

8.2.5 Term of the Investor Agreement

The Investor Agreement has a fixed term of 30 months. In addition, the Investor Agreement provides for each party to have termination rights exercisable subject to certain conditions that have been specified in more detail; such rights include, without limitation, the following rights:

As specified in more detail in the Investor Agreement, OHB and the Bidder may terminate the Investor Agreement if the Offer lapses as a result of non-fulfillment of the Offer Conditions or due to failure by the respective other party to perform material undertakings under the Investor Agreement. Further, as specified in more detail in the Investor Agreement, OHB and the Bidder may terminate the Investor Agreement if the settlement of the Offer does not occur by the eighth banking day after the Long Stop Date (as defined in section 12.1.1 of this Offer Document).

Moreover, if a Superior Offer has been submitted, OHB may be entitled to terminate the Investor Agreement as described in section 8.2.2 of this Offer Document. Further, OHB may terminate the Investor Agreement if the Bidder terminates the Cooperation Agreement (as described in section 8.3.1 of this Offer Document).

The Bidder is also entitled to terminate the Investor Agreement in the event that the Management Board and/or the Supervisory Board do not support the Offer in the/their reasoned statement/s in accordance with the Investor Agreement or withdraw the statement, or that a Superior Offer has been implemented or the Family Shareholders terminate the Cooperation Agreement (as described in section 8.3.1 of this Offer Document).

8.3 Agreements between the Bidder and certain other parties

8.3.1 Cooperation Agreement

On 7 August 2023, the Bidder and the Family Shareholders entered into a cooperation agreement (the "**Cooperation Agreement**") stipulating material aspects of the implementation of this Offer and certain other undertakings of the parties to the Cooperation Agreement after consummation of this Offer.

The material provisions of the Cooperation Agreement are summarized below. The Cooperation Agreement also contains certain statements of the Bidder regarding its intentions, which are stated in section 9.

(a) Undertakings and joint actions in connection with the Takeover Offer

The parties to the Cooperation Agreement work together closely and exclusively. This applies specifically to the Offer. The parties also work closely together in the context of undergoing official approval procedures. After consummation of the Offer, the parties to the Cooperation Agreement will consult with each other regarding OHB and the OHB Group and the exercise of the voting rights attached to their respective OHB Shares in accordance with the Shareholders' Agreement (see section 8.3.2 of this Offer Document).

(b) Transfer restrictions

The parties to the Cooperation Agreement are subject to transfer restrictions related to the OHB Shares held by them for the period from 7 August 2023 until the date of consummation of the Offer unless the Cooperation Agreement is terminated earlier.

(c) Term of the Cooperation Agreement

The term of the Cooperation Agreement ends upon the Takeover Offer being prohibited by BaFin or after expiration of a certain period of time if the Bidder holds less than 8% of all OHB Shares after consummation of the Offer. The Cooperation Agreement ends on 31 December 2044, at the latest. In addition, the Cooperation Agreement provides for each party to have termination rights exercisable subject to certain conditions that have been specified in more detail; such rights include, without limitation, the following rights:

As specified in more detail in the Cooperation Agreement, the parties may in particular terminate the Cooperation Agreement in the period up to and including the date of consummation of the Offer if the Offer lapses as a result of non-fulfillment of the Offer Conditions or due to failure by the respective other party to perform or material undertakings under the Cooperation Agreement.

The Bidder is also entitled to terminate the Cooperation Agreement in other cases in accordance with the more detailed provisions of the Cooperation Agreement in the period up to and including the date of consummation of the Offer.

8.3.2 Shareholders' Agreement

As part of the Cooperation Agreement, the Bidder and the Family Shareholders agreed on the key terms of a shareholders' agreement (the "**Shareholders' Agreement**") setting out the future rights and obligations of the Bidder and the Family Shareholders with respect to their stake in OHB after consummation of this Offer. The parties to the Shareholders' Agreement have agreed to perform the terms of the Shareholders' Agreement no later than three business days prior to the end of the Acceptance Period, taking legal effect as from the date of the consummation of the Offer (condition precedent).

The key terms of the Shareholders' Agreement can be summarized as follows:

(a) Pooling of voting rights

The Family Shareholders and the Bidder will coordinate the exercise of the voting rights attached to their OHB Shares after consummation of the Offer through a steering committee (the "**Steering Committee**"), which is to be newly established. The Steering Committee will consist of a number of members that reflects the stakes held by the Family Shareholders and the Bidder in the Company in accordance with agreed standards. To the extent that the Family Shareholders hold more than 51% of the OHB Shares, the Bidder may nominate no more than two of a total of five members of the Steering Committee. The Shareholders' Agreement precludes that the Family Shareholders, without their consent, hold less than 51% of the voting rights in OHB during the term of the Shareholders' Agreement. Depending on their respective stakes, each of the Family Shareholders and the Bidder has a right to veto any decisions on business matters that are included in a pre-agreed list. These business matters include, without limitation, the OHB Group's annual budget, related party transactions, corporate actions, amendments to OHB's articles of association, dividends and related decisions, in each case subject to the terms specified in more detail in the Shareholders' Agreement. The scope of the right to veto depends on whether OHB itself or which of its Group companies is affected by an intended measure.

(b) Transfer restrictions and exit rights

The parties to the Shareholders' Agreement are subject to transfer restrictions with respect to the OHB Shares held by them for a period of four years starting on the date of publication of the decision to submit this Offer. After the respective lock-up period has expired, the parties are subject to certain drag-along rights, tag-along rights and pre-emptive rights applying to OHB Shares in a certain scope, in each case subject to the terms specified in more detail in the Shareholders' Agreement.

(c) Term

The Shareholders' Agreement will take effect upon consummation of the Offer and has the same term and provides for the same termination rights as the Cooperation Agreement (see section 8.3.1(c) of this Offer Document).

Based on the provisions of the Shareholders' Agreement, upon consummation of the Offer, the voting rights attached to the 12,557,346 OHB Shares held by the Family Shareholders (see section 6.5.1 of this Offer Document) will be attributed to the Bidder and the Bidder-Controlling Shareholders pursuant to section 30 para. 2 WpÜG. This is equivalent to approx. 71.89% of the share capital of and voting rights in OHB. If the Bidder holds less than 30% of the voting rights in OHB directly upon consummation of this Offer and the capital increase (as outlined in section 6.6 of this Offer Document), the Bidder will therefore exceed the threshold of 30% of the voting rights in OHB upon consummation of this Offer because of the attribution of the OHB Shares held by the Family Shareholders. This means that, as a result of the Offer, the Bidder and the Bidder-Controlling Shareholders will, pursuant to section 35 para. 3 WpÜG, not be required to submit a mandatory offer.

8.3.3 Non-tender Agreements and Blocked Account Agreements

The Family Shareholders have each entered into qualified Non-tender Agreements (as defined in section 14.1 of this Offer Document) with respect to the total of 12,178,720 OHB Shares held by them. In addition to the Non-tender Agreements, each of these OHB Shareholders entered into a separate Blocked Account Agreement (as defined in section 14.1 of this Offer Document) with the Bidder and with the respective Custodian Bank where the OHB Shares that are held by the relevant OHB Shareholder and are subject to the Non-tender Agreements are booked. Further information specifically about this can be found in section 14.1 of this Offer Document.

Moreover, on 7 August 2023, the Bidder entered into another agreement with Dr. Lutz Bertling, a member of the Management Board of OHB, under which transfer restrictions apply to the OHB Shares held by him and in which he undertakes not to accept the Offer for 10,000 OHB Shares held by him.

8.3.4 Declaration of Support

On 7 August 2023, Romana Fuchs Mayrhofer and Marco Fuchs made and signed a declaration of support *vis-à-vis* the Bidder with respect to the Offer (the "**Declaration of Support**"). In that declaration, they confirm their support of the Takeover Offer and

undertake, *inter alia*, not to transfer any OHB Shares held by them or by their subsidiaries (with the exception of the OHG Group), to third parties.

9. INTENTIONS OF THE BIDDER AND THE BIDDER-CONTROLLING SHAREHOLDERS

The intentions of the Bidder described below are the shared intentions of the Bidder and the Bidder-Controlling Shareholders in respect of OHB at the time of publication of this Offer Document. Neither the Bidder nor the Bidder-Controlling Shareholders have any intentions deviating from the intentions laid out in sections 9.1 to 9.7 of this Offer Document.

9.1 Future business activities, assets, and future obligations of OHB

The Bidder intends to strengthen OHB's business further and promote its sustainable growth, through both organic and inorganic growth measures. The Bidder strongly supports OHB's strategy, which aims to enhance its ability to tackle the complex challenges faced by the aerospace industry and to make OHB a leading independent player in the European aerospace industry.

The Bidder approves the company's organic growth plans, which, among other things, require significant investments in staff, products, and technology in order to provide added value for customers and the OHB Group in the long term and to increase the enterprise value in a sustainable way. In addition, after the consummation of the Offer, the Bidder intends to assist the Management Board in identifying and reviewing opportunities for strategic acquisitions of OHB. OHB's growth strategy allows for growing the company both organically, depending on acquisition opportunities, and through complementary acquisitions that could also be financed using equity capital of the Bidder depending on the level of funding requirements and the decisions made in the Steering Committee. The Bidder also intends to assist the Management Board with regard to other strategic and operational initiatives in order to strengthen the company's innovation capacity and productivity as well as its appeal as an employer in the long term.

OHB's relations with the German Government and the European organizations relevant for the aerospace sector (such as the European Space Agency and the European Commission) are in the opinion of the Bidder a cornerstone for its future success. It is therefore the intention of the Bidder to develop and promote OHB's business and growth while maintaining the perception in the market of OHB as a family-run German business.

Under an agreement dated 7 August 2023, KKR Orchid Lux Aggregator SCSp, a person acting jointly with the Bidder, has undertaken *vis-à-vis* Rocket Factory Augsburg AG and OHB to subscribe convertible bonds of Rocket Factory Augsburg AG in the total amount

of EUR 30 million. Rocket Factory Augsburg AG is a corporate spin-off from OHB. The Bidder intends to support the development of the *RFA One* micro launcher of Rocket Factory Augsburg AG.

In addition, the Bidder is subject to a separate obligation to subscribe for 1,746,809 new OHB Shares in connection with the capital increase of OHB described in section 6.6 of this Offer Document.

Beyond the above intentions, the Bidder does not intend to take any other actions regarding the future business operations, the appropriation of assets, or future obligations of OHB.

9.2 Registered office of OHB; location of material parts of the business

The Bidder does not intend to move or close either the registered office (*Satzungssitz*) or the headquarters (*Verwaltungssitz*) of OHB from Bremen to another location. Nor does the Bidder intend to cause other subsidiaries or any OHB affiliates to relocate or close their respective registered offices or headquarters. The Bidder does not intend to make any changes in respect of the location of material parts of the business operations. Similarly, the Bidder does not intend to change the brand(s) or corporate name(s) of OHB or any companies affiliated with OHB.

9.3 Employees, employee representation, and terms and conditions of employment

The Bidder acknowledges that the dedicated workforce of OHB is at the heart of its current and future success and that the business prospects of OHB depend on the creativity of its employees and employee base in terms of innovation, experience in the aerospace sector and business acumen. It is not the intention of the Bidder to make any material changes with regard to OHB's terms of employment.

The Bidder also intends to support the Management Board in maintaining and developing an attractive and competitive framework to retain an excellent employee base. In particular, the Bidder intends to respect the rights of the employees and works councils that exist within or *vis-à-vis* OHB Group in accordance with applicable laws, regulations, rules and agreements.

9.4 Members of OHB's Management Board

The Bidder has full confidence in the current members of OHB's Management Board. The Management Board will continue to manage OHB's business independently and exclusively on its own responsibility. Accordingly, the Bidder acknowledges that it will not issue any instructions to the Management Board or any of its members and that there is no obligation on the part of the Management Board or its members to carry out, or refrain

from, any legal transaction or any act at the behest of the Bidder (in the form of a request, demand, or instruction). It is not the Bidder's intention to replace any of the members of the Management Board during their remaining term of office.

Beyond the above intentions, the Bidder has no further intentions regarding the members of OHB's Management Board.

9.5 Members of OHB's Supervisory Board

The Bidder intends to increase the size of the Supervisory Board under certain circumstances as specified in the Shareholders' Agreement, including, without limitation, a potential delisting having been implemented. It is the intention of the Bidder to change the composition of the Supervisory Board as specified in more detail in the Shareholders' Agreement entered into with the Family Shareholders so as to be represented by at least one member on the Supervisor Board.

9.6 Intended corporate action (*Strukturmaßnahmen*)

9.6.1 A delisting

After the settlement of the Takeover Offer, if a squeeze-out is not possible, the Bidder intends to cause – to the extent that this is legally permissible and practicable – the revocation of the admission of the OHB Shares to trading on the regulated market pursuant to section 39 para. 2 of the German Stock Exchange Act (*Börsengesetz*), i.e., a delisting. In that event, before the delisting takes effect, a delisting offer (pursuant to the WpÜG in conjunction with the German Stock Exchange Act) would have to be made to all OHB Shareholders to acquire the OHB Shares held by them in return for appropriate consideration. In the Investor Agreement, OHB has undertaken, subject to its duties, to assist in a delisting of the OHB Shares by taking all of the steps reasonably necessary for implementing such a delisting.

9.6.2 A squeeze-out

Depending on the combined stake held by the Bidder and the Family Shareholders in OHB after the settlement of the Offer, on the economic situation and the legal framework at that point in time, the Bidder intends to implement a squeeze-out.

If, upon settlement of the Takeover Offer or at any point thereafter, the Bidder and the Family Shareholders jointly hold at least 95% of OHB's share capital, a request may be made – after a pooling of the OHB Shares held by the Bidder and the Family Shareholders – for the transfer of the OHB Shares held by the minority shareholders in

return for appropriate cash compensation pursuant to sections 327a et seqq. AktG (squeeze-out under German stock corporation law).

If, upon settlement of the Takeover Offer or at any point thereafter, the Bidder and the Family Shareholders hold at least 90% of OHB's share capital, OHB's outside shareholders may be squeezed out after the pooling of the OHB Shares held by the Bidder and the Family Shareholders by merging OHB into its main shareholder in return for appropriate cash compensation pursuant to section 62 para. 5 of the German Transformation Act (*Umwandlungsgesetz*, "**UmwG**") in conjunction with sections 327a et seq. AktG (squeeze-out under German transformation law).

9.6.3 A domination and/or profit and loss transfer agreement

The Bidder does not intend to conclude a domination and/or profit and loss transfer agreement between the Bidder as the controlling company and OHB as the controlled company and, in the Investor Agreement, has undertaken to OHB to refrain from entering into a domination and/or profit and loss transfer agreement.

9.7 Intentions with regard to the business activities of the Bidder and the Bidder-Controlling Shareholders

The Bidder does not have any operating business of its own. As described in section 6.1 of this Offer Document, the corporate purpose of the Bidder is, *inter alia*, to acquire, sell and manage participations in other companies and to manage the assets of the Bidder. With the exception of the effects on the Bidder's assets, indebtedness, financial position and results of operations described in section 15 of this Offer Document, the Bidder and the Bidder-Controlling Shareholders have no intentions that could result in a change of, or otherwise affect, the registered offices of the companies or the locations of material parts of the business, its future business activities, the use of its assets, or future liabilities of the Bidder and the Bidder-Controlling Shareholders, the members of the governing bodies of the Bidder and the Bidder-Controlling Shareholders, or, if any, the employees, their representative bodies, and the terms and conditions of employment at the Bidder and the Bidder-Controlling Shareholders.

10. EXPLANATION OF THE ADEQUACY OF THE OFFER PRICE

10.1 Minimum Offer Price

Pursuant to section 31 paras. 1 and 7 WpÜG in conjunction with sections 4 and 5 of the WpÜG Offer Regulation, the minimum price for the OHB Shares is the higher of the two following values:

- (a) Pursuant to section 5 of the WpÜG Offer Regulation, the consideration must, in the case of a voluntary public takeover offer pursuant to sections 29 et seqq. WpÜG, at least be equivalent to the weighted average domestic stock exchange price of the OHB Shares during the last three months prior to the publication of the decision to launch the Offer pursuant to section 10 para. 1 sentence 1 WpÜG on 7 August 2023. The volume-weighted three-month average price for the OHB Shares up to (and including) the reference date (6 August 2023) was communicated by BaFin as having been EUR 31.64 per OHB Share.
- (b) Pursuant to section 4 of the WpÜG Offer Regulation, the consideration must, in the case of a voluntary public takeover offer pursuant to sections 29 et seqq. WpÜG, at least be equivalent to the highest consideration granted or agreed for the acquisition of OHB Shares by the Bidder, persons acting jointly with it, or their subsidiaries within the last six months prior to the publication of the Offer Document pursuant to section 14 para. 2 sentence 1 WpÜG.
- (c) During the relevant period of six months before 15 September 2023 (the date of publication of the Offer Document), the Bidder has entered into agreements within the meaning of section 31 para. 6 sentence 1 WpÜG as a result of which the transfer of title to 1,746,809 OHB Shares may be demanded for consideration of EUR 44.00 per OHB Share (see section 6.6 of this Offer Document) and KKR Orchid Lux Aggregator SCSp, Luxembourg, Grand Duchy of Luxembourg, a person acting jointly with the Bidder within the meaning of section 2 para. 5 WpÜG, executed market purchases in the relevant period as listed in section 6.6 of this Offer Document for a maximum consideration of EUR 43.25 per OHB Share. Apart from the foregoing, the Bidder, persons acting jointly with the Bidder within the meaning of section 2 para. 5 WpÜG, and their subsidiaries have not acquired or agreed to acquire any OHB Shares during the relevant period pursuant to section 4 of the WpÜG Offer Regulation.

The Offer Price of EUR 44.00 per OHB Share thus fulfils the requirements of section 31 paras. 1 and 7 WpÜG in conjunction with sections 4 and 5 of the WpÜG Offer Regulation.

10.2 Financial adequacy of the Offer Price

When determining the Offer Price of EUR 44.00, in addition to the factors specified in section 10.1 of this Offer Document, the Bidder also took into consideration in particular the historic stock exchange prices of the OHB Share and target price expectations regarding the stock exchange price of the OHB Share.

10.2.1 Financial adequacy of the Offer Price in relation to historical stock exchange prices

The Bidder believes that the stock exchange prices of the OHB Share constitute a suitable basis for assessing the adequacy of the Offer Price. The OHB Shares are admitted to trading on the Regulated Market of the Frankfurt Stock Exchange and, simultaneously, on the sub-segment of the Regulated Market with additional post-admission obligations (Prime Standard) under ISIN DE0005936124 and are included in the open market (*Freiverkehr*) of the stock exchanges in Berlin, Düsseldorf, Hamburg, Hanover, Munich, Stuttgart and also Tradegate.

Based on the stock exchange price of the OHB Shares prior to the publication of the Bidder's decision to make this Offer on 7 August 2023, the Offer Price of EUR 44.00 per OHB Share includes the following premiums:

- (a) The stock exchange price (XETRA closing price) on 4 August 2023, i.e., on the last trading day prior to the publication of the Bidder's decision to make this Offer, amounted to EUR 32.20 per OHB Share (source: *Bloomberg*). The Offer Price of EUR 44.00 thus includes a premium of EUR 11.80, or approximately 36.6%, based on this stock exchange price.
- (b) The volume-weighted average stock exchange price in the last three months up to (and including) 4 August 2023 as communicated by BaFin amounted to EUR 31.64 per OHB Share. The Offer Price of EUR 44.00 thus includes a premium of EUR 12.36, or approximately 39.1%, based on this average price.
- (c) The highest stock exchange price (XETRA) in the past 52 weeks up to (and including) 4 August 2023 was EUR 36.70 per OHB Share (source: *Bloomberg*). The Offer Price of EUR 44.00 thus includes a premium of EUR 7.30, or approximately 19.9%, based on this stock exchange price.

10.2.2 Financial adequacy of the Offer Price in relation to target price expectations

In addition to the above, the Bidder believes that the Offer Price of EUR 44.00 is adequate also based on the analyst expectations shown below regarding the target prices for the OHB Share published on Bloomberg in the last five months before the publication of the decision to make the Offer on 7 August 2023:

Bank	Analyst report dated	Target price
Oddo BHF	11 July 2023	EUR 35.00
NuWays	3 July 2023	EUR 48.00
Pareto Securities	10 May 2023	EUR 42.00
DZ Bank	28 March 2023	EUR 40.00

Kepler Cheuvreux	16 March 2023	EUR 47.00
Median		EUR 42.00

Source: *Bloomberg*, 4 August 2023.

Based on these analyst expectations, the median target price for the OHB Share is approximately EUR 42.00. If that median is taken as a reference, the Offer Price of EUR 44.00 includes a premium of EUR 2.00, or approximately 4.8%.

10.2.3 Other valuation methods and conclusion

The Bidder further points out that extensive negotiations were held with OHB and the Family Shareholders before the price was set for this Offer.

In light thereof, the Bidder is convinced that the Offer Price constitutes exceedingly attractive consideration for the acquisition of the OHB Shares and offers an exceedingly attractive premium on past stock exchange prices to the OHB Shareholders.

The Bidder did not apply any other valuation methods for the determination of the Offer Price apart from those described in this Offer Document.

From the Bidder's point of view, the Offer Price of EUR 44.00 per OHB Share is therefore adequate.

10.3 No applicability of section 33b WpÜG

OHB's articles of association do not provide for the application of section 33b para. 2 WpÜG. Therefore, the Bidder is not obliged to pay compensation pursuant to section 33b para. 5 WpÜG.

11. OFFICIAL APPROVALS AND PROCEEDINGS

The official approvals and proceedings that are required for the consummation of this Offer (the "**Transaction**") are described below.

11.1 Required merger control approval by the European Commission; status of procedure

The Transaction is subject to merger control clearance by the European Commission pursuant to Council Regulation (EC) No 139/2004 of 20 January 2004 on the control of concentrations between undertakings (the "**EU Merger Regulation**") if the Bidder obtains, within the meaning of the EU Merger Regulation, joint control of OHB (together with the Family Shareholders) through the consummation of the Offer. Control for the purposes of

the EU Merger Regulation may also be conferred by such contractual rights, which the Bidder could be entitled to pursuant to the Shareholders' Agreement (as described in section 8.3.2 of this Offer Document) that will become effective between the Bidder and the Family Shareholders upon consummation of the Offer. The Transaction cannot be implemented before merger control approval has been obtained from the European Commission, provided that the Transaction is not referred to the competent national authorities of the Member States of the European Union.

The European Commission provides for a pre-notification phase in which it gives guidance on the application of the EU Merger Regulation and states what additional information is needed to start the formal review process. In simple cases, it can be assumed that the pre-notification phase will last between three and six weeks, during which time no deadlines run. From the formal filing of the full merger control notification (i.e., after completion of the pre-notification phase), the European Commission has 25 working days (Phase I) to decide whether to clear the transaction or initiate an in-depth investigation. If commitments are made to address potential competition concerns identified by the European Commission in Phase I, the 25 working days will be extended by 10 working days, for a total of 35 working days. A detailed investigation (Phase II) can generally take up to 90 additional working days. If commitments are made to address competition concerns identified by the European Commission, this period may be extended by an additional 15 working days. In addition, the deadline can be extended by a maximum of 20 working days.

The Bidder initiated the pre-notification process with the European Commission on 11 August 2023, submitting a Case Team Allocation Request to the European Commission and a draft merger control notification on 23 August 2023.

Formal filing of the mandatory notification was made to the European Commission on 12 September 2023.

The Bidder does not expect that the Transaction will require the entering into of commitments or that the European Commission will initiate a Phase II investigation. The clearance period is thus expected to end within 25 working days after formal filing of the merger control notification (after completion of the pre-notification phase).

11.2 Required foreign direct investment (or similar) clearances; status of procedures

The application for foreign investment control (or similar) clearances by the competent authorities in Germany, Austria, Belgium, the Czech Republic, France, Italy, Luxembourg, Portugal, Sweden and the United Kingdom is required or at least advisable, in the event that the Bidder, through the consummation of the Offer, meets the requirements for a notifiable investment under the relevant German, Austrian, Belgian, Czech, French, Italian,

Luxembourg, Portuguese, Swedish and British investment control law, as one or more of the companies of the OHB Group, according to the information available to the Bidder, may carry out certain relevant business activities in these jurisdictions that are covered by the relevant investment control law.

11.2.1 Investment control procedures in Germany

In Germany, the direct or indirect acquisition of a certain shareholding in a German entity by an investor from outside of the European Union or the European Free Trade Association or from outside Germany can be the subject of a formal review (a cross-sectoral examination or sector-specific examination, respectively) by the German Federal Ministry for Economic Affairs and Climate Action ("**BMWK**") in the context of an investment screening pursuant to sections 55 et seqq. of the German Foreign Trade and Payments Regulation (*Außenwirtschaftsverordnung* – "**AWV**") and the German Foreign Trade and Payments Act (*Außenwirtschaftsgesetz*).

The BMWK can initiate a formal investment review procedure within two months of obtaining knowledge of the Transaction. Where the respective German target company falls within certain categories defined in the AWV, a notification must be made and, before the acquisition is completed, the transaction must be approved by the BMWK ("**German FDI Clearance**"). The shareholdings in OHB and certain other German OHB Group companies to be acquired by the Bidder in the course of this Offer are subject to the notification and thus the approval requirement. In the case of an acquisition falling within the scope of application of the WpÜG, the two-month deadline stated can be started, in particular, when BaFin notifies the BMWK of the Bidder's decision to submit an offer pursuant to section 7 para. 1 sentence 2 in conjunction with section 10 para. 2 sentence 1 no. 3 WpÜG communicated to it and the BMWK thus obtains knowledge of the transaction.

If the BMWK initiates a formal investment review procedure within the two-month period, then it must decide within another four months of receipt of all the required documentation whether German FDI Clearance will be issued for the Transaction, the Transaction will be prohibited, or orders will be issued. The stated examination deadlines of two months and four months respectively can be extended or suspended under certain circumstances. After they expire, the BMWK is no longer allowed to exercise its powers and German FDI Clearance is deemed to have been issued.

The BMWK obtained knowledge of the publication of the intention to make the Takeover Offer on 7 August 2023, which triggered the start of the aforementioned two-month period.

Formal filing of the mandatory notification was made to the BMWK on 31 August 2023.

11.2.2 Investment control procedures in Austria

The acquisition of an Austrian company or of a direct or indirect stake of 10%, 25%, 50%, or more of the voting rights, a controlling influence, or the acquisition of the essential assets in such a company by a foreign investor from outside of the European Union, the European Economic Area, or Switzerland may be subject to a formal investigation by the Austrian Federal Ministry for Labour and Economy ("**FMLE**") pursuant to the Austrian Foreign Commerce Act 2011, the Austrian Investment Control Act 2020, and the Austrian Cartel and Competition Law Amendment Act 2021 ("**Austrian FDI Laws**"). If the Austrian target company falls into certain categories defined in the Austrian FDI Laws, a notification is mandatory and clearance by the FMLE within the meaning of the Austrian FDI Laws is required.

Following the submission of a notification, and once the FMLE confirms the notification is complete, the initial review period will commence, during which (a) the European Commission and/or EU member states can comment on the transaction for a period of up to 40 calendar days; and (b) following the expiration of the 40 calendar days, the FMLE may review the Transaction for a further period of up to one calendar month. During the phase I review period, the FMLE will assess whether to approve the Transaction or to initiate an in-depth investigation (phase II) and will generally assess whether the Transaction leads to an actual and sufficiently serious threat to the interests of public order and security that affects the fundamental interests of Austrian society.

If the FMLE decides to initiate an in-depth investigation (phase II), it may review the Transaction for a further period of up to two calendar months.

Formal filing of the mandatory notification was made to the FMLE on 7 September 2023.

11.2.3 Investment control procedures in Belgium

In Belgium, the direct or indirect acquisition of more than 10% or 25% (depending on the activities) of the voting rights of and/or control in a Belgian company or entity by a foreign investor from outside the European Union may be subject to a formal investigation by the Interfederal Screening Commission ("**ISC**") pursuant to the Belgian Act of 14 February 2023 on the Federal Screening Regime ("**Federal Screening Regime**"). If the relevant target's Belgian subsidiaries are active in sectors listed in the Federal Screening Regime, a notification is mandatory and clearance by the ISC within the meaning of Federal Screening Regime is required before the transaction can close.

Following the submission of a notification, and once the ISC confirms the notification is complete, the assessment period (the "**Assessment Phase**") of 30 calendar days (subject to

extension in certain circumstances) commences. During the Assessment Phase, the ISC will assess whether to approve the transaction or to initiate an in-depth investigation (the "**Screening Phase**"). The ISC will assess whether there are concrete indications that the implementation of the transaction may pose a risk to Belgium's public order, national security, or strategic interests.

If the ISC decides to initiate the Screening Phase, the ISC may review the Transaction for a further period of 28 calendar days, which can be extended under certain circumstances. At the end of the Screening Phase, the ISC will issue a decision in which it either (i) approves the Transaction, (ii) conditionally approves the Transaction with accompanying commitments, or (iii) blocks the Transaction.

The final decision taken in light of the Screening Phase can be appealed by the Parties before the Market Court in Brussels. The appeal does not suspend the contested decision. If the Market Court annuls the decision, the case will be sent back to the ISC.

Formal filing of the mandatory notification is currently being prepared and is expected to be made to the ISC by the end of September 2023.

11.2.4 Investment control procedures in the Czech Republic

A direct or indirect acquisition of a Czech company (resulting in the acquisition of at least 10% of voting rights or the fulfilment of other criteria enabling an effective level of control) by an investor from outside of the European Union or controlled by a person outside of the European Union may be subject to a mandatory approval by the Czech Ministry of Industry and Trade (the "**MPO**") under Czech Act No. 34/2021 on Screening of Foreign Investments (the "**Czech FDI Act**") where the investment is made in a target company active in specific sensitive sectors as defined in the Czech FDI Act.

The MPO may also generally initiate a screening procedure of any foreign investment under the Czech FDI Act if the MPO considers the investment to be capable of threatening the security and/or the internal or public order of the Czech Republic. The MPO may initiate such screening procedure *ex officio* within 5 years from completion of the investment. To mitigate the possibility of a transaction being reviewed by the MPO *ex officio*, the parties may file a voluntary proposal for consultation with the MPO.

In the proposal for consultation or the mandatory notification, the investor must provide the MPO with all relevant information. If the proposal for consultation is filed, the MPO can either (i) initiate a formal screening procedure for the transaction (see below) or (ii) notify the investor that it has no objection to the transaction within 45 days from filing of the proposal of consultation. In the latter case, the transaction may not be subject to

further review unless it is revealed that the investor submitted untruthful or incomplete information.

During the consultation, other governmental bodies are consulted on the transaction. If the MPO sends a request for further information or documents, the 45-day deadline for a notification of non-objection is suspended until the requested information is provided.

If a mandatory notification is submitted without the need for any consultation, or the formal screening procedure is initiated by the MPO either during the consultation or *ex officio*, other relevant governmental bodies will be requested to provide a reasoned opinion. If no concerns are raised by governmental bodies and the MPO itself does not find grounds to prohibit the transaction, the MPO issues a resolution on the acceptability of the transaction with no additional conditions within 90 days from initiation of the formal screening procedure (the deadline can be extended by 30 days in complex cases).

If concerns are raised by other governmental bodies, or the MPO itself finds grounds to prohibit the transaction, the MPO sends the matter to the Czech government for decision within the above deadline (90 days from initiation of the formal screening procedure, or 120 days in more complex cases). The government will issue its decision within 45 days of submission of the matter. Based on the decision of the government, the MPO will either issue a decision on (i) the permissibility of the transaction with no additional conditions, (ii) the conditional permissibility of the transaction (if the government decides that the transaction may be approved subject to remedies pre-agreed between the MPO and the investor in prior discussions), or (iii) the prohibition of the transaction or its continuance. The MPO must issue such decision without undue delay.

Formal filing of the mandatory notification is currently being prepared and is expected to be made to the MPO by the end of September 2023.

11.2.5 Investment control procedures in France

Under the French foreign investment control regime as defined by Articles L. 151-3 and R.151-1 et seq. of the French Monetary and Financial Code ("**CMF**"), an investment carried out in France is subject to prior authorization by the French Ministry of Economy ("**MoE**") if (i) the investment is carried out in France by a foreign investor, (ii) it qualifies as a share deal, an asset deal, or a threshold crossing that constitutes a regulated investment in a company based in France (including French Overseas Territories), and (iii) the target's activity falls within one of the categories listed by the CMF. Upon receipt of the application for foreign investment control clearance of a transaction, the MoE may, within 30 working days (the review period being suspended under certain circumstances), decide that (i) the transaction does not fall within the scope of the CMF or (ii) the transaction falls within the

scope of the CMF and is approved without conditions or (iii) the transaction falls within the scope of the CMF and further review is required. If the MoE deems further review necessary, it may decide within 45 working days to (i) approve the transaction (subject to commitments from the bidder, if applicable) or (ii) refuse to approve the transaction.

Formal filing of the mandatory notification is currently being prepared and is expected to be made to the MoE by the end of September 2023.

11.2.6 Investment control procedures in Italy

The acquisition of a controlling interest or of a non-controlling interest of 3% or more of the shares/voting rights in a domestic (i.e., Italian) company holding strategic assets relevant to the defense or national security of Italy by an entity other than the Italian State or any Italian State-controlled entity must be notified to the Italian Presidency of the Council of Ministers (*Presidenza del Consiglio dei Ministri, Presidency*) ("**Italian Council of Ministers**") pursuant to Decree Law no. 21 of 15 March 2012, as amended and as implemented through specific Presidential Decrees.

Upon filing of a foreign investment notification to the Italian Council of Ministers, the Italian Council of Ministers must, within 45 working days (calculated as 45 calendar days excluding Saturdays and Sundays and any national holiday pursuant to the Italian calendar), issue a decision either (i) approving the Transaction (whether subject to conditions or not) or (ii) blocking the Transaction. This term can be extended by (a) 10 calendar days if information is requested from the notifying parties; (b) 20 calendar days if information is requested from third parties; (c) 40 calendar days if the coordination mechanism under Regulation (EU) 452/2019 is initiated (in conjunction with any notice from the European Commission or any Member State regarding the submission of a non-binding opinion or comments); and (d) further periods for the provision of additional information that may be requested by the European Commission or any Member State (pursuant to Article 6 of Regulation (EU) 452/2019).

Formal filing of the mandatory notification was made to the Italian Council of Ministers on 29 August 2023.

11.2.7 Investment control procedures in Luxembourg

An investment of any kind by a foreign investor in a Luxembourg entity carrying out a critical activity in Luxembourg is subject to the screening mechanism introduced by the Law of 14 July 2023 setting up a national mechanism for the screening of foreign direct investments likely to affect security or public order (the "**Luxembourg FDI Act**") if the investment enables the foreign investor to participate in the control of such an entity.

Control under the Luxembourg FDI Act means (i) directly or indirectly holding the majority of the voting rights of the shareholders or partners of a Luxembourg entity; (ii) having the right to appoint or dismiss the majority of the members of the administrative, management, or supervisory body of a Luxembourg entity while being a partner or shareholder of such an entity; (iii) being a shareholder or partner of a Luxembourg entity controlling the majority of the voting rights by virtue of an arrangement concluded with the other shareholders or partners of such an entity; or (iv) directly or indirectly exceeding the threshold of 25% of the voting rights in a Luxembourg entity.

The foreign investor must submit a notification to the Luxembourg Ministry of the Economy (the "**Luxembourg MoE**") before the investment is completed (*avant la réalisation*) or within 15 calendar days of the completion if the 25%-voting-rights threshold in the Luxembourg entity is exceeded as a result of events modifying the composition of the share capital.

The Luxembourg MoE decides whether the investment is subject to the screening procedure within two months of receipt of the notification. If the screening procedure is triggered, its duration is 60 calendar days. In both phases, requests for information may suspend the relevant review period. The Luxembourg MoE may grant authorization subject to conditions.

Formal filing of the mandatory notification is currently being prepared and is expected to be made to the Luxembourg MoE by the end of September 2023.

11.2.8 Investment control procedures in Portugal

In Portugal, the acquisition of a domestic company that holds strategic assets or a certain stake therein by a company from outside of the European Union or the European Free Trade Association may be subject to a screening process by the member of the Portuguese government responsible for those assets, typically the Minister of Economy, but, in certain cases, the Minister of National Defence or the Minister of Infrastructure (the relevant "**Portuguese Minister**") under the Decree-Law no. 138/2014 of 15 September (the "**Portuguese FDI Act**").

Under this framework, the Portuguese government has the power to oppose transactions that entail a change of control of national strategic assets when the transactions may jeopardize in a real and sufficiently serious manner the national defense and security of Portugal or the provision of essential services to the population.

The Portuguese Minister responsible for the relevant strategic assets may initiate a screening process within 30 working days of becoming aware of the transaction and notify

the purchaser of the initiation of that screening process. In order to trigger the 30-working-day waiting period, the parties may voluntarily notify the Portuguese government of the transaction, provide relevant information, and request a decision of non-objection.

Within 30 working days of the voluntary notification, the Portuguese Minister may issue a decision of non-objection or choose not to issue a decision at all (which has the same effects as a non-objection decision), meaning the Portuguese government is no longer able to exercise its powers to object to the transaction.

If the Portuguese Minister decides to initiate a screening process within the 30-working-day period, the investor must provide all relevant information. The government may request additional information and will have 60 working days to issue its decision on whether or not it objects to the transaction. If no decision is issued within the 60-day period (starting from the date when the information provided to the Portuguese government was complete), the Portuguese government is deemed to have not objected to the transaction.

Formal filing of the voluntary notification was made to the Portuguese government on 6 September 2023.

11.2.9 Investment control procedures in Sweden

On 11 May 2023, the Swedish government introduced a bill for an act providing for the screening of foreign direct investments (*Förslag till lag om granskning av utländska direktinvesteringar*, Prop. 2022/23:116, the "**Swedish FDI Act**"), providing for the screening of foreign direct investments in Swedish companies that meet certain thresholds. The Swedish FDI Act (which will be voted upon by the Swedish Parliament in September 2023) is expected to be applicable to transactions closing on or after 1 December 2023.

A transaction resulting in the investor acquiring (directly or indirectly) voting rights equal to or exceeding 10%, 20%, 30%, 50%, 65%, or 90% in a target company (or influence over the management through other means) domiciled in Sweden is subject to a mandatory filing obligation if the target's activity falls within the area of any of the activities outlined in the Swedish FDI Act.

It is envisaged that the Inspectorate of Strategic Products (*Inspektionen för strategiska produkter*) (the "**ISP**") will be appointed by the Swedish government as the screening authority once the Swedish FDI Act has been passed into law by the Swedish parliament. A mandatory notification to the ISP can be made on 1 December 2023 at the earliest. Once a notification is deemed complete, the ISP will decide within 25 working days (Phase I) either to take no further action or to initiate an examination. In the event of a decision to examine the investment, the ISP will make a final decision (Phase II) within three months

after the decision to initiate the examination. If there are special grounds, this deadline may be extended to six months. A final decision to approve a transaction may be subject to conditions.

11.2.10 Investment control procedures in the United Kingdom

In the UK, the acquisition of shares or voting rights that leads to the investor's shareholding crossing the thresholds of 25%, 50%, or 75% in a qualifying entity active in one of 17 strategic sectors set out in the National Security and Investment Act 2021 or the acquisition of voting rights sufficient to secure or prevent the passage of any class of resolution governing the affairs of such a qualifying entity may trigger a mandatory notification to the Secretary of State in the Cabinet Office (the "**UK Secretary of State**"). In addition, the UK Secretary of State has the power to review transactions where the qualifying entity's activities fall outside the 17 strategic sectors and/or where the investor only acquires the ability to materially influence the policy of the qualifying entity or acquires control over a qualifying asset; in such situations, a voluntary notification may be made.

When a mandatory (or voluntary) notification is filed with the Investment Security Unit (the relevant department within the Cabinet Office), the UK Secretary of State has 30 working days from the date of acceptance of the notification to either: (i) approve the transaction or (ii) issue a call-in notice for further review. If the UK Secretary of State subjects the transaction to further review, the review may take up to an additional 30 working days (the "**Assessment Period**") and may be extended by an additional 45 working days (the "**Additional Period**"). Requests for information may suspend the Assessment Period and Additional Period; and further extensions are possible, with the consent of the parties, if more time is needed to complete negotiations on remedial measures. Upon completion of the review, the UK Secretary of State may (i) approve the transaction unconditionally; (ii) issue a final order approving the transaction with conditions; or (iii) issue a final order prohibiting the transaction.

Formal filing of the mandatory notification is currently being prepared and is expected to be made to the Investment Security Unit by the end of September 2023.

11.3 **Required foreign subsidies control clearance by the European Commission; status of procedure**

The Transaction is subject to foreign subsidies control clearance by the European Commission under Regulation (EU) 2022/2560 of the European Parliament and of the Council of 14 December 2022 on foreign subsidies distorting the internal market (the "**Foreign Subsidies Regulation**") if the Bidder obtains, within the meaning of the Foreign Subsidies Regulation, joint control of OHB (together with the Family Shareholders)

through the consummation of the Offer. Control for the purposes of the Foreign Subsidies Regulation may be conferred by such contractual rights, which the Bidder could be entitled to pursuant to the Shareholders' Agreement (as described in section 8.3.2 of this Offer Document) that will become effective between the Bidder and the Family Shareholders upon consummation of the Offer. The Foreign Subsidies Regulation entered into force on 12 July 2023 and applies to transactions meeting certain thresholds and that are signed or announced on or after 12 July 2023 and consummated after 12 October 2023.

The European Commission provides for a pre-notification phase (which has no formal deadlines or statutory time limit) in which it gives guidance on the application of the Foreign Subsidies Regulation and states what additional information is needed to start the formal review process. The formal filing of the notification (i.e., after completion of the pre-notification phase) may only occur on or after 12 October 2023. Following formal filing, the European Commission has 25 working days (Phase I) to decide whether to clear the transaction or initiate an in-depth investigation. A detailed investigation (Phase II) may take up to 90 additional working days. If commitments are made to address subsidy concerns identified by the European Commission, this period may be extended by an additional 15 working days. In addition, the deadline can be extended by a maximum of 20 working days.

The Bidder plans to initiate the pre-notification process with the European Commission during the course of September 2023. In the event that foreign subsidies control clearance by the European Commission is required in connection with the Offer, the Bidder does not expect that the Transaction will require the entering into of commitments or that the European Commission will initiate a Phase II investigation. The clearance period is therefore expected to end within 25 working days after the formal filing of the foreign subsidies control notification (after completion of the pre-notification phase).

The formal submission of the foreign subsidies control notification to the European Commission will be prepared and filed without undue delay following the completion of the pre-notification process outlined above.

11.4 Permission to publish this Offer Document

BaFin approved the publication of the Offer Document on 15 September 2023.

12. OFFER CONDITIONS

The Offer Conditions specified above in (a) (i) to (v), (b), (c) and (d) (i) to (iii) constitute independent Offer Conditions.

In the period between the publication of this Offer Document and the expiration of the Acceptance Period, the daily closing value of the MDAX (Total Return) Index (ISIN DE0008467416) as determined by STOXX Ltd., a subsidiary of Deutsche Börse AG, and published on the internet at <https://www.qontigo.com/index/mdax/> is not 40% or more less than the closing averages of the MDAX on 4 August 2023 and on 14 September 2023, i.e., below an MDAX threshold level of 16,624.16 points, on three (3) consecutive trading days.

12.1.6 No prohibition and no unlawfulness of the Offer

In the period between the publication of this Offer Document and the expiration of the Acceptance Period, no law (except for the Swedish FDI Act), no regulation, no administrative act, no interim relief, no preliminary or permanent blocking injunction, nor any other order of a government body of a Member State of the European Union has been issued prohibiting or making unlawful the consummation of the Offer and such a prohibitive legal instrument is still in place and continues its prohibitive effect as of the expiration of the Acceptance Period.

12.2 Non-fulfillment of the Offer Conditions; waiver of Offer Conditions

The Bidder may waive all or individual Offer Conditions up until one working day before the expiration of the Acceptance Period pursuant to section 21 para. 1 sentence 1 no. 4 WpÜG, provided that this/these Offer Condition(s) has/have definitively not been fulfilled prior to that date. The waiver is equivalent to the fulfillment of the relevant Offer Condition.

If and to the extent that fulfillment of any or several of the Offer Conditions specified in section 12.1 of this Offer Document has definitively not occurred and the Bidder has not validly waived them previously, the Offer will lapse and the agreements that have been

entered into as a result of accepting the Offer will terminate and will not be performed (conditions subsequent); Tendered OHB Shares will be returned. Accordingly, the Central Settlement Agent (as defined in section 13.1 of this Offer Document) will cause the rebooking of the Tendered OHB Shares (ISIN DE000A37FTP4) to ISIN DE0005936124 by the Custodian Banks (as defined in section 13.2 of this Offer Document) via Clearstream Banking AG without undue delay, and no later than four Banking Days after the announcement that the Offer has lapsed. For OHB Shareholders that hold their OHB Shares in a securities deposit account in Germany, the rebooking is, as a rule, free of costs and expenses of the Custodian Banks. Any foreign taxes or costs and fees charged by foreign Custodian Banks that do not have any securities deposit account connections with Clearstream Banking AG must, however, be paid by the relevant OHB Shareholders.

12.3 Publication of the fulfillment or non-fulfillment of the Offer Conditions

The Bidder will promptly announce on the internet at www.orchid-offer.com (in German and in an English translation) and in the Federal Gazette if (i) any Offer Condition has been validly waived previously, (ii) any Offer Condition has been fulfilled, (iii) all Offer Conditions have either been fulfilled or have been validly waived previously, or (iv) the Offer will not be consummated because fulfillment of any or several of the Offer Conditions has definitively not occurred. Likewise, the Bidder will promptly announce after the expiration of the Acceptance Period, as part of the publication according to section 23 para. 1 sentence 1 no. 2 WpÜG, which of the Offer Conditions specified in section 12.1 of this Offer Document have been fulfilled by such time.

13. ACCEPTANCE AND SETTLEMENT OF THE OFFER WITH REGARD TO OHB SHARES

13.1 Central Settlement Agent

The Bidder has appointed Morgan Stanley Europe SE, with its registered office in Frankfurt am Main, Germany, (the "**Central Settlement Agent**") as the central settlement agent for the Offer.

13.2 Declaration of Acceptance and rebooking

OHB Shareholders that wish to accept the Offer should contact their Custodian Bank or other custodian investment services enterprise that has its registered office or a branch in Germany regarding any questions they may have about accepting the Offer and the technical aspects of the settlement thereof. These banks and service providers have been separately informed about the modalities for the acceptance and settlement of the Offer and are expected to inform customers holding OHB Shares in their securities deposit accounts about the Offer and the steps required to accept it.

OHB Shareholders can accept the Offer during the Acceptance Period (please see section 13.6 of this Offer Document regarding acceptance of the Offer during the Additional Acceptance Period) only by taking the following steps during the Acceptance Period:

- (a) declaring acceptance of the Offer in text form or electronically ("**Declaration of Acceptance**") vis-à-vis their custodian investment service provider ("**Custodian Bank**"), and
- (b) instructing their Custodian Bank to effect without undue delay the rebooking of the OHB Shares held in their securities deposit account for which they wish to accept the Offer to ISIN DE000A37FTP4 at Clearstream Banking AG.

A Declaration of Acceptance will become effective only if the Tendered OHB Shares have been rebooked to ISIN DE000A37FTP4 at Clearstream Banking AG by 18:00 hrs (Frankfurt am Main local time) on the second Banking Day after expiration of the Acceptance Period (additional booking period). These rebookings are to be caused by the relevant Custodian Bank without undue delay after receipt of the Declaration of Acceptance.

Declarations of Acceptance that are not received by the relevant Custodian Bank within the Acceptance Period, or that have been incorrectly or incompletely filled out, do not count as acceptance of the Offer and do not entitle the relevant OHB Shareholder to receive the Offer Price. Neither the Bidder nor the Central Settlement Agent are obliged to notify the relevant OHB Shareholder of any deficiencies or errors in the Declaration of Acceptance and they assume no liability if such notification is not made.

13.3 Further declarations of the OHB Shareholders upon acceptance of the Offer

By accepting the Offer pursuant to section 13.2 of this Offer Document,

- (a) the accepting OHB Shareholders instruct and authorize their respective Custodian Banks and any intermediate custodians of the relevant OHB Shares for which the Offer has been accepted
 - (i) to leave the OHB Shares for which the Offer has been accepted in the securities deposit accounts of the accepting OHB Shareholders for the time being, but to cause their rebooking to ISIN DE000A37FTP4 at Clearstream Banking AG;
 - (ii) to instruct and authorize Clearstream Banking AG to make the Tendered OHB Shares available to the Central Settlement Agent in its securities deposit account at Clearstream Banking AG for transfer of title to the Bidder

- after expiration of the Additional Acceptance Period (but not before all Offer Conditions set out in section 12.1 of this Offer Document have been fulfilled or fulfillment has been validly waived by the Bidder previously);
- (iii) to instruct and authorize Clearstream Banking AG to transfer the Tendered OHB Shares, including all ancillary rights, in particular the entitlement to profit, existing at the time of settlement of the Offer, to the Bidder concurrently with (*Zug-um-Zug gegen*) payment of the Offer Price for the Tendered OHB Shares to the account of the relevant Custodian Bank at Clearstream Banking AG in accordance with the provisions of the Offer;
 - (iv) to instruct and authorize any intermediate custodians of the relevant Tendered OHB Shares and Clearstream Banking AG to make available to the Bidder or to the Central Settlement Agent all information necessary for declarations or publications of the Bidder pursuant to the WpÜG, in particular the number of OHB Shares rebooked to ISIN DE000A37FTP4 on each stock exchange trading day during the Acceptance Period, the Additional Acceptance Period, and the relevant additional booking period; and
 - (v) to forward the Declaration of Acceptance or, as applicable, a declaration of withdrawal, to the Central Settlement Agent upon request;
- (b) the accepting OHB Shareholders commission and empower their respective Custodian Banks and the Central Settlement Agent, and in each case authorize them, releasing them from the prohibition of self-contracting pursuant to section 181 of the German Civil Code (*Bürgerliches Gesetzbuch*), to take all steps and to make and to receive all declarations that are necessary or expedient for the settlement of this Offer in accordance with this Offer Document, and in particular to effect the transfer of title to the Tendered OHB Shares to the Bidder in accordance with paragraph (a) above;
- (c) the accepting OHB Shareholders declare that
- (i) they accept the Offer for all OHB Shares in their securities deposit account with the Custodian Bank at the time they declare acceptance of the Offer, unless expressly specified otherwise in text form or electronically in the Declaration of Acceptance;
 - (ii) the OHB Shares for which they accept the Offer are their exclusive property and are free of rights and claims of third parties at the time of transfer of title to the Bidder; and

- (iii) they will transfer their Tendered OHB Shares concurrently with payment of the Offer Price to the account of the relevant Custodian Bank at Clearstream Banking AG subject to the following conditions precedent:
- fulfillment of all Offer Conditions under section 12.1 of this Offer Document; an Offer Condition is also deemed fulfilled if the Bidder has validly waived it previously; and
 - expiration of the Additional Acceptance Period.

In the interest of a smooth and prompt settlement of the Offer, the instructions, declarations, orders, powers of attorney, and authorizations listed in this section 13.3 (a) to (c) are issued irrevocably by the accepting OHB Shareholders. They will lapse only in the event of a valid withdrawal from the agreements that have been entered into as a result of accepting the Offer in accordance with section 17 of this Offer Document or in the event of definitive non-fulfillment of any of the Offer Conditions set out in section 12.1 of this Offer Document.

13.4 Legal consequences of acceptance

Upon acceptance of the Offer, an agreement for the sale of the Tendered OHB Shares to the Bidder is entered into between the accepting OHB Shareholder and the Bidder pursuant to the terms of this Offer. That agreement is governed by the laws of Germany. The consummation of that agreement will take place only upon all Offer Conditions set out in section 12.1 of this Offer Document having been fulfilled or validly waived by the Bidder previously. The agreement will be cancelled if one or more of the Offer Conditions set out in section 12.1 of this Offer Document has or have not been fulfilled by the point in time specified in the relevant Offer Condition and the Bidder has not validly waived the relevant Offer Condition(s) previously (see section 12.2 of this Offer Document). Furthermore, by accepting the Offer, the accepting OHB Shareholders issue and grant the instructions, authorizations, orders and powers of attorney specified in section 13.3 (a) and (b) of this Offer Document and make the declarations listed in section 13.3 (c) of this Offer Document.

13.5 Settlement of the Offer and payment of the Offer Price

Settlement of the Offer will be effected by payment of the Offer Price to the relevant Custodian Bank concurrently with the transfer of the Tendered OHB Shares tendered during the Acceptance Period to the account of the Central Settlement Agent at Clearstream Banking AG. The Central Settlement Agent will have the Offer Price for the Tendered OHB Shares paid via Clearstream Banking AG to the relevant Custodian Bank without undue delay after the expiration of the Additional Acceptance Period, but no later than on the eighth Banking Day following publication of the results of the Offer pursuant to

section 23 para. 1 sentence 1 no 3 WpÜG, provided that the Offer Conditions pursuant to section 12.1 of this Offer Document that the Bidder has not validly waived previously have been fulfilled by the point in time that the Additional Acceptance Period expires.

If the Offer Conditions pursuant to sections 12.1.1, 12.1.2 and 12.1.3 of this Offer Document have not been fulfilled by the point in time that the Additional Acceptance Period expires, provided that the Bidder has not previously validly waived such Offer Conditions, the Central Settlement Agent will transfer the Offer Price via Clearstream Banking AG to the relevant Custodian Bank without undue delay, but no later than on the eighth Banking Day, after the day on which the Bidder announces pursuant to section 12.3 of this Offer Document that all Offer Conditions set out in this Offer Document (to the extent that the Bidder has not validly waived them previously) have been fulfilled.

The settlement of the Offer and the payment of the Offer Price to the accepting OHB Shareholders may be delayed until 11 October 2024 at the latest or may not occur at all due to the required regulatory clearance procedures (see sections 11.1, 11.2 and 11.3 of this Offer Document).

Upon payment of the Offer Price to the relevant Custodian Bank, the Bidder's obligation to pay the Offer Price will be deemed to have been fulfilled. It will be the responsibility of the Custodian Banks to credit the Offer Price to the relevant (previous) OHB Shareholders without undue delay.

13.6 Acceptance of the Offer within the Additional Acceptance Period

Subject to the following, the terms of sections 13.1 to 13.5 of this Offer Document apply *mutatis mutandis* to the acceptance of the Offer during the Additional Acceptance Period. A Declaration of Acceptance will become effective only if the Tendered OHB Shares tendered during the Additional Acceptance Period have been rebooked to ISIN DE000A37FTP4 at Clearstream Banking AG by 18:00 hrs (Frankfurt am Main local time) on the second Banking Day after expiration of the Additional Acceptance Period (additional booking period); Declarations of Acceptance not received by the relevant Custodian Bank within the Additional Acceptance Period do not count as acceptance of the Offer and do not entitle the relevant OHB Shareholder to receive the Offer Price.

OHB Shareholders wishing to accept the Offer during the Additional Acceptance Period should contact their Custodian Bank with any questions.

13.7 Costs and expenses

For OHB Shareholders that hold their OHB Shares in a securities deposit account with a Custodian Bank in Germany, accepting the Offer is, as a rule, free of costs and expenses

of the Custodian Banks (except for the costs for transmitting the Declaration of Acceptance to the relevant Custodian Bank). For this purpose, the Bidder will pay to the German Custodian Banks compensation that has been separately communicated to them and that includes a market-standard custodian bank commission. As a precautionary measure however, the Bidder wishes to point out that it cannot issue binding instructions to the Custodian Banks on what costs and expenses they may charge to the OHB Shareholders for accepting the Offer.

Any additional costs and expenses charged by Custodian Banks or foreign investment services enterprises, as well as any expenses incurred outside of Germany, however, must be borne by the relevant OHB Shareholders. Any taxes and levies related to the conclusion of the purchase agreement and the transfer of Tendered OHB Shares in return for payment of the Offer Price must be borne by the relevant OHB Shareholders.

13.8 Stock exchange trading in Tendered OHB Shares

The Tendered OHB Shares can be traded on the Regulated Market of the Frankfurt Stock Exchange (Prime Standard) under ISIN DE000A37FTP4. Trading will presumably start on the third Banking Day after the commencement of the Acceptance Period. Trading is expected to be discontinued (i) at the end of the last day of the Additional Acceptance Period if on that date all Offer Conditions have been fulfilled or validly waived by the Bidder previously, or (ii) at the end of the third stock exchange trading day directly preceding the settlement or reversal of the Offer.

The acquirers of Tendered OHB Shares traded under ISIN DE000A37FTP4 will assume all rights and obligations arising from the agreements entered into as a result of accepting the Offer with respect to these OHB Shares. The Bidder points out that trading volumes and liquidity of the Tendered OHB Shares depend on the specific acceptance rate and may therefore not exist at all or may be low and may be subject to heavy fluctuations. Therefore, it cannot be ruled out that, in the absence of demand, it will be impossible to sell the Tendered OHB Shares on the stock exchange or only possible to sell the Tendered OHB Shares at a lower price than OHB Shares not tendered into the Offer.

14. FINANCING OF THE OFFER

14.1 Need for financing

As of the date of publication of the Offer Document, 17,468,096 OHB Shares have been issued. Of that number, 164,095 OHB Shares are held by the Bidder. If the Offer were to be accepted for all other 17,304,001 OHB Shares in issue, the Bidder would need financing, based on the Offer Price of EUR 44.00 per OHB Share, in the total amount of

EUR 761,376,044.00. In addition, estimated transaction costs of no more than EUR 38,500,000.00 (the "**Transaction Costs**") will be incurred by the Bidder in connection with the Offer and its settlement. The costs which the Bidder would incur for the acquisition of all OHB Shares not already held by it directly would thus amount to a maximum of EUR 799,876,044.00.

On 7 August 2023, the Bidder concluded qualified non-tender agreements with the Family Shareholders concerning all OHB Shares held by them, i.e., in aggregate 12,178,720 OHB Shares (equivalent to approx. 69.72% of the present share capital of and voting rights in OHB), in which those persons undertake, *inter alia*, not to transfer their respective OHB Shares pursuant to this Offer or, subject to certain exceptions, to transfer their shares to any third party (collectively referred to as the "**Non-tender Agreements**").

The Non-tender Agreements relate to the following OHB Shares:

Non-tendering shareholder	Number of OHB Shares	% of OHB's share capital (rounded)
Fuchs-Familienstiftung	7,448,550	42.64
VOLPAIA Beteiligungs-GmbH	3,730,170	21.35
Martello Value GmbH & Co. KG	1,000,000	5.72
Total	12,178,720	69.72

In the Non-tender Agreements, the Family Shareholders have undertaken, *inter alia*, to pay a contractual penalty regarding all OHB Shares held by the relevant shareholder in the event that they, in contravention of their contractual undertaking pursuant to the relevant Non-tender Agreement, accept the Offer in full or in part or divest, which results in a claim against the Bidder for payment of the Offer Price per Tendered OHB Share. In such an event, the Family Shareholders are obligated to pay to the Bidder for each OHB Share tendered into the Offer in breach of the Non-tender Agreement a contractual penalty in the amount of the Offer Price. Those contractual penalties would be due and payable when the claim to the consideration pursuant to this Offer falls due, i.e., upon settlement, and would be automatically offset against the claim to payment of the Offer Price per Tendered OHB Share, meaning that the reciprocal claims will lapse in full through that offsetting.

In addition to the Non-tender Agreements, on 7 August 2023, the Family Shareholders entered into one or more separate blocked account agreements ("**Blocked Account Agreements**") with the Bidder and with their respective custodian bank where the OHB Shares that are held by the relevant Family Shareholder and are subject to the Non-tender Agreements are booked. In the Blocked Account Agreements, the relevant custodian bank irrevocably and subject to certain conditions undertakes, *inter alia*, (i) to transfer none of the OHB Shares held by the Family Shareholder at that custodian bank to other securities

deposit accounts of that Family Shareholder or to securities deposit accounts of any third parties, (ii) to deliver none of the OHB Shares held by the Family Shareholder at that custodian bank to that shareholder or third parties, and (iii) to execute no orders of that shareholder for the sale or transfer of OHB Shares.

Because of the Non-tender Agreements and the Blocked Account Agreements, the Bidder assumes that no more than 5,125,281 OHB Shares will be tendered by the OHB Shareholders. The Bidder therefore assumes that the maximum amount of financing that the Bidder will need based on an Offer Price of EUR 44.00 will decrease by EUR 535,863,680.00 to EUR 225,512,364.00.

The total costs that the Bidder would incur in the context of this Offer for the acquisition of all OHB Shares not already held by it directly and not subject to the Non-tender Agreements, on the basis of an Offer Price of EUR 44.00 per OHB Share, together with the Transaction Costs, would thus amount to a maximum of EUR 264,012,364.00 ("**Offer Costs**").

14.2 Financing measures

The Bidder has taken the necessary measures prior to publication of this Offer Document to ensure that it will have at its disposal the funds necessary to completely satisfy the Offer at the time the claim for payment of the Offer Costs arising under the Offer becomes due and payable.

On 7 August 2023, KKR European Fund VI (USD) SCSp (as described in section 6.2) and KKR European Fund VI (EUR) SCSp, a special limited partnership (*société en commandite spéciale*) incorporated under the laws of Luxembourg with its registered office in Luxembourg, Grand Duchy of Luxembourg, registered with the Luxembourg Trade and Companies Register (*Registre de Commerce et des Sociétés*) under B255175 (which holds an indirect interest in the Bidder but does not control it) (collectively the "**KKR Funds**"), undertook to the Bidder to provide to the Bidder, upon request and in good time before every day on which consideration pursuant to the Takeover Offer must be rendered, directly or indirectly a total amount of up to EUR 271,232,544.00 by way of one or more direct or indirect capital contributions (the contributions can be made in the form of ordinary shares, preference shares, equity or debt capital instruments, or shareholder loans) (the "**Financing Commitment**").

The KKR Funds are financed by their investors. As of the date of publication of this Offer Document, the available, not yet earmarked capital commitments of the KKR Funds from fixed contribution obligations of its investors exceed the amount of the Financing Commitment of EUR 271,232,544.00.

The total amount under the Financing Commitment is greater than the Offer Costs. The Bidder has thus taken the necessary measures to ensure that it will have funds in the amount of the Offer Costs available at the relevant point in time.

14.3 Financing confirmation

Morgan Stanley Europe SE, with its registered office in Frankfurt am Main, Germany, an investment services enterprise that is independent of the Bidder, has confirmed in writing that the Bidder has taken the necessary measures to ensure that it will have at its disposal, at the time the claim for payment of the cash consideration becomes due, the funds necessary to fully satisfy the Offer. This financing confirmation in accordance with section 13 para. 1 sentence 2 WpÜG is attached as **Annex 8**.

15. EXPECTED EFFECTS OF A SUCCESSFUL OFFER ON THE ASSETS, FINANCIAL POSITION, AND PERFORMANCE OF THE BIDDER

To estimate the possible effects of the settlement of the Offer on the assets, financial position, and results of the Bidder, the Bidder has carried out a preliminary and unaudited estimation of the statement of financial position and income that would result for the Bidder in the event of a successful settlement of the Offer; section 15.3 of this Offer Document provides a corresponding description of the expected effects of the settlement of the Offer on the basis of the Bidder's individual statement of financial position as at 31 August 2023.

15.1 Status quo and assumptions

The information, views, and forward-looking statements contained in this section 15 and the related explanations of the expected effects of a successful Offer on the assets, financial position, and results of the Bidder presume the following status quo and are based in particular on the following assumptions:

15.1.1 Status quo

- (a) The Bidder's financial statements are prepared in accordance with the Luxembourg generally accepted accounting principles.
- (b) In the period between its incorporation on 14 July 2023 and the publication of this Offer Document, the Bidder has not engaged in any business activity except for measures in connection with its incorporation and the transactions described in this Offer Document and has therefore not generated any revenues or earnings. Accordingly, neither audited statements of financial position nor profit and loss statements of the Bidder are available. In order to show the effects of the Offer on

the Bidder's individual financial statements, the Bidder's unaudited statement of financial position as at 31 August 2023 is used as a basis.

- (c) On 31 August 2023, the Bidder's share capital was fully paid in.
- (d) The Bidder currently holds 164,095 OHB Shares.

15.1.2 Assumptions

- (a) It is assumed in the following that, through this Offer, the Bidder will acquire all issued OHB Shares not directly held by it, with the exception of the OHB Shares that are subject to the Non-tender Agreements, i.e., a total of 5,125,281 OHB Shares, at the Offer Price of EUR 44.00 per OHB Share, in return for payment of a total purchase price in the amount of EUR 225,512,364.00 (5,125,281 OHB Shares multiplied by EUR 44.00).
- (b) The capital increase of OHB described in section 6.6 of the Offer Document will be subscribed by the Bidder at the Offer Price and registered in its commercial register prior to the consummation of the Offer. Under this capital increase, the Bidder will therefore acquire a total of 1,746,809 OHB Shares at the Offer Price of EUR 44.00 per OHB Share, i.e., against payment of a contribution amount of EUR 76,859,596.00 (1,746,809 OHB Shares multiplied by EUR 44.00).
- (c) The 164,095 OHB Shares held by the Bidder will be reported in its statement of financial position as financial assets with a value of EUR 44.00 per OHB Share.
- (d) Except for the capital increase described in section 6.6 of this Offer Document, the share capital of OHB will not be increased until the Additional Acceptance Period has expired.
- (e) The Transaction Costs will amount to a maximum of EUR 38,500,000.00. The exact amount of the Transaction Costs and which part of them is incidental acquisition costs to be capitalized (*aktivierungspflichtige Anschaffungsnebenkosten*) and which part constitutes immediately deductible expenses is currently not yet known. The description of the assets, financial position, and results is based (for simplification purposes) on the assumption that the aggregate Transaction Costs in the amount of EUR 38,500,000.00 will be incidental acquisition costs to be capitalized.
- (f) The funds necessary to pay the Offer Costs and the contribution amount for the capital increase, amounting to a total of EUR 340,871,960.00, will be provided to the Bidder in the amount of EUR 320,871,960.00 through equity financing (as an addition to capital reserves) and in the amount of EUR 20,000,000.00 through debt financing.

- (g) For simplification purposes, tax effects on the Bidder have not been taken into account.
- (h) Apart from the proposed acquisition of the OHB Shares and the financing measures described in section 14.2 of this Offer Document and in this section 15.1, no other effects on the assets, financial position, and results of the Bidder that may yet arise in the future are accounted for in the following description.

The Bidder points out that the effects of the acquisition of the OHB Shares on its future assets, financial position, and results cannot yet be precisely forecast as of today. The reasons for this are, in particular, the following:

- (a) The final amount of the Offer Costs will only be certain after the Offer has been consummated and the final number of OHB Shares for which the Offer has been accepted is certain.
- (b) The exact amount of the Transaction Costs and which part of them is incidental acquisition costs to be capitalized and which part constitutes immediately deductible expenses will not be known, either, until after the closing of the Transaction.

15.2 Methodical approach and reservations

In order to assess the expected effects of the Offer on the assets, financial position, and results of the Bidder (to the extent relevant), the Bidder has made a preliminary and unaudited assessment of the assets, financial position, and results of the Bidder that would result (in accordance with the Luxembourg accounting rules) in the event of the settlement of the Offer.

Below, based on the status quo and assumptions set out in section 15.1 of this Offer Document, this preliminary and unaudited assessment of the Bidder's assets and financial position will be compared to the Bidder's unaudited individual financial statements as at 31 August 2023. The expected effects on the Bidder's results are described on the basis of the results expected for the future, as the Bidder had no operating business as at 31 August 2023.

15.3 Effects on the Bidder's stand-alone financial statements

15.3.1 Assets and financial position

Subject to the assumptions and reservations made in sections 15.1 and 15.2 of this Offer Document and based on its present valuation, the Bidder expects that the consummation of

the Offer would have the following effects on its stand-alone statement of financial position as at 31 August 2023 (simplified and unaudited):

Effects on the Bidder's statement of financial position as of 31 August 2023 (simplified and unaudited)

in TEUR (rounded)	Bidder as at 31 August 2023	Changes due to equity financing	Changes due to debt financing	After equity and debt financing	Calculate d change resulting from contributi on amount for capital increase OHB	Calculate d change resulting from the settlement of the Offer	After the capital increase and the settlement of the Offer

- (a) Financial assets will increase from TEUR 7,220 by TEUR 340,872 to TEUR 348,092; in this context, it must be taken into account that the Transaction Costs of TEUR 38,500 will be capitalized in full and result in an increase of financial assets by that amount.
- (b) Cash and cash equivalents will not change as the contribution amount for the capital increase and the Offer Costs will be financed in full from equity financing and fresh debt financing, i.e., cash and cash equivalents will initially increase from TEUR 12 by TEUR 340,872 to TEUR 340,884. As a result of the subscription of the OHB capital increase and the payment of the contribution amount, cash and cash equivalents will then decrease from TEUR 340,884 by TEUR 76,860 to TEUR 264,024. As a result of the settlement of the Offer and the payment of the Transaction Costs, cash and cash equivalents will decrease further from TEUR 264,024 by TEUR 264,012 to TEUR 12.
- (c) Based on the cash contributions made as part of the equity financing, capital reserves, as a component of the Bidder's equity, will increase from TEUR 7,220 by TEUR 320,872 to TEUR 328,092.

- (d) As a result of the debt financing, liabilities are expected to increase from EUR 0 by TEUR 20,000 to TEUR 20,000.

15.3.2 Results

Future earnings of the Bidder, which will act as a holding company, will mainly consist of earnings from its participation in OHB. The amount of future earnings is uncertain. OHB has passed a resolution to pay a dividend of EUR 0.60 for each OHB Share for the fiscal year expiring on 31 December 2022. The Bidder also expects, pursuant to the content of the Cooperation Agreement, a dividend distribution in that amount in the future provided that OHB reports a corresponding profit available for distribution. However, it is not possible to predict with certainty whether or not there will continue to be any dividend paid in future fiscal years and, if so, in what amount.

The Bidder's future expenses will mainly consist of interest payments on the debt financing. Interest payments in the approximate amount of EUR 800,000 (4% p.a.) are expected in the first 12 months.

15.4 Expected effects on the Bidder-Controlling Shareholders

The KKR Funds are financed by investors that have made capital commitments to the KKR Funds that can be redeemed from the investors upon request and in proportion to their respective participations. As of the date of publication of this Offer Document, the available, not yet earmarked capital commitments of the KKR Funds from their investors' fixed contribution obligations exceed the amount of the Financing Commitment of EUR 271,232,544.00 (as described in detail in section 14.2 of this Offer Document) plus the contribution amount of EUR 76,859,596.00 for the capital increase (as described in detail in section 6.6 of this Offer Document) and the investment in Rocket Factory Augsburg AG of EUR 30,000,000.00 (as described in detail in section 9.1 of this Offer Document).

16. INFORMATION FOR OHB SHAREHOLDERS THAT DO NOT ACCEPT THE OFFER

OHB Shareholders that do not intend to accept the Offer should consider the following:

- (a) The present stock market price of the OHB Share reflects the fact that, on 7 August 2023, the Bidder published its decision to launch this Offer. It is uncertain whether the stock market price of the OHB Share after settlement of the Offer will continue to stay at the current level or will be higher or lower, or whether it will return to a similar level as observed prior to 7 August 2023.

- (b) The settlement of the Offer will result in a reduction of the free float of the issued OHB Shares. It is also to be expected that the supply of and the demand for OHB Shares will be less after the settlement of the Offer than today and that, as a result, the liquidity of the OHB Share will decrease. It is therefore possible that buy and sell orders with respect to OHB Shares cannot be executed or cannot be executed in a timely manner. Moreover, the possible limitation of the liquidity of the OHB Share could result in substantially greater price fluctuations of the OHB Share in the future.
- (c) The consummation of the Takeover Offer and, in particular, the expected reduction in the free float of OHB Shares may lead to OHB no longer fulfilling the criteria set by certain index providers for the OHB Shares to remain in the relevant index, including the MSCI Europe Small-Cap, MSCI Germany Small-Cap, and CDAX indices. This may result in the OHB Shares being removed from one or more indices and may have the foreseeable result that funds and institutional investors tracking that index in their portfolio will dispose of OHB Shares and will not acquire any further OHB Shares in the future. A resulting increase in the supply of OHB Shares coupled with a lower demand for OHB Shares may have an adverse effect on the stock exchange price of the OHB Shares.
- (d) After the settlement of the Offer, the Bidder and the Family Shareholders together will have a qualified voting majority in the general meeting of OHB and will therefore also have the voting majority required to force through all important structural measures under corporate law at OHB's general meeting. These measures include, for example, elections of supervisory board members representing the shareholders, dismissals of supervisory board members representing the shareholders, granting or rejecting ratification of the actions (*Entlastung*) of the management board or supervisory board members, amendments of the articles of association, capital increases, and the exclusion of shareholders' subscription rights in the event of corporate actions, the entry into inter-company agreements, such as a domination and profit transfer agreement, as well as transformations, mergers and the dissolution of the company. It is pointed out, however, that the Bidder has undertaken, *vis-a-vis* OHB, – as set out in section 9.6.3 of this Offer Document – not to enter into a domination and/or profit and loss transfer agreement. Only in the case of some of these measures would there be an obligation to submit to the minority shareholders an offer to acquire their OHB Shares on the basis of an enterprise valuation of OHB in exchange for reasonable compensation or to grant any other compensation. Since such a valuation would have to be based on the circumstances prevailing at the time the resolution on the relevant measure is adopted by OHB's general meeting, the value of such consideration might equal the Offer Price, but it could also be higher or lower.

- (e) After the settlement of the Takeover Offer, the Bidder intends, as swiftly as possible and to the extent permitted by law and practicable, to cause the revocation of the admission of the OHB Shares to trading on the regulated market in accordance with the provisions of the WpÜG and the German Stock Exchange Act (see section 9.6.1 of this Offer Document above). In the event of a delisting, before it takes effect, a delisting offer (pursuant to the WpÜG in conjunction with the German Stock Exchange Act) would have to be made to all OHB Shareholders to acquire the OHB Shares held by them in return for appropriate consideration. The amount of the appropriate consideration might be equal to the Offer Price, but it could also be higher or – under certain temporal conditions – lower. In the Investor Agreement, OHB has undertaken to assist in a delisting of the OHB Shares. Upon delisting, the trading volume of OHB Shares (to the extent available) will decrease considerably. This may no longer allow any typical trading activities. Moreover, the OHB Shares could be removed from one or more indices referred to in section 16(c) of this Offer Document, which could have the consequences set out in that section. Additionally, certain statutory provisions, in particular those of the WpÜG, and transparency and reporting obligations, including obligations in connection with quarterly financial reporting and shareholder transparency, will no longer apply to OHB. The obligations to prepare, publish, and transmit annual and biannual financial reports pursuant to sections 114 et seqq. WpHG, and the provisions governing the auditing of annual financial statements pursuant to sections 106 et seqq. WpHG, *inter alia*, will no longer apply following a successful delisting.
- (f) A transfer of the OHB Shares of the minority shareholders to the main shareholder could be demanded in return for appropriate cash compensation (squeeze-out) if the main shareholder directly or indirectly holds the number of OHB Shares required to do so (see section 9.6.2 of this Offer Document above). The amount of the cash compensation would be determined on the basis of the circumstances on the date that OHB's general meeting passes the respective resolution. The amount of the cash compensation might be equal to the Offer Price, but it could also be higher or lower.
- (g) OHB Shareholders are entitled to a tendering right under section 39c WpÜG relating to the OHB Shares held by them if the aggregate number of OHB Shares held by the Bidder after the completion of the Offer equals at least 95% of the OHB Shares in issue; such tender must be accepted within three months from publication of the fact that the required participation threshold under section 23 para. 1 sentence 1 no. 4 WpÜG has been reached. This tendering right applies to all OHB Shares then in issue. The Bidder will publish an announcement in accordance with section 23 para. 1 sentence 1 no. 4 WpÜG if the threshold of 95% of OHB Shares required for an application under section 39a WpÜG has been reached. It is

pointed out, however, that the Bidder is unlikely to achieve a participation of 95% after the settlement of the Offer due to the Non-tender Agreements (see section 14.1 of this Offer Document).

17. RIGHTS OF WITHDRAWAL

17.1 Right of withdrawal in the event of an amendment of the Offer and in the event of a launch of a Competing Offer

According to the WpÜG, only the following withdrawal rights exist for OHB Shareholders that have accepted the Offer:

- (a) In the event of an amendment of the Offer pursuant to section 21 para. 1 WpÜG, OHB Shareholders may, until the expiration of the Acceptance Period, withdraw from the agreements entered into as a result of accepting the Offer pursuant to section 21 para. 4 WpÜG, if and to the extent that they have accepted the Offer prior to publication of the amendment of the Offer. This also applies if the amended Offer violates laws and regulations.
- (b) In the event of a Competing Offer pursuant to section 22 para. 1 WpÜG, OHB Shareholders may, until the expiry of the Acceptance Period, withdraw from the agreements entered into as a result of accepting the Offer pursuant to section 22 para. 3 WpÜG, if and to the extent that they have accepted the Offer prior to publication of the offer document for the Competing Offer. This also applies if the Competing Offer is amended or prohibited or violates laws and regulations.

17.2 Exercise of the right of withdrawal in respect of the OHB Shares

OHB Shareholders can exercise their right of withdrawal in respect of the OHB Shares pursuant to section 17.1 above only by taking the measures set out below prior to the expiration of the Acceptance Period:

- (a) by declaring their withdrawal in text form or electronically to their Custodian Bank for a specified number of Tendered OHB Shares, provided that, in the event that no number is specified, the withdrawal will be deemed to have been declared for all of the Tendered OHB Shares of the relevant OHB Shareholder; and
- (b) by instructing their Custodian Bank to have the number of Tendered OHB Shares held in their securities deposit account as is equivalent to the number of Tendered OHB Shares for which they have declared their withdrawal to be rebooked without undue delay to ISIN DE0005936124 at Clearstream Banking AG.

The withdrawal is effected by the withdrawing OHB Shareholder declaring in text form or electronically to his/her/its Custodian Bank during the Acceptance Period and the Custodian Bank rebooking the Tendered OHB Shares for which the withdrawal is being declared to ISIN DE0005936124 at Clearstream Banking AG. The Custodian Bank is required, without undue delay after receiving the declaration of withdrawal, to cause the Tendered OHB Shares for which withdrawal is being declared to be rebooked to the original ISIN DE0005936124 at Clearstream Banking AG. The OHB Shares may again be traded under ISIN DE0005936124 immediately after rebooking.

The OHB Shares are considered to have been rebooked on time if the rebooking has been effected at the latest by 18:00 hrs (Frankfurt am Main local time) on the second Banking Day after the end of the Acceptance Period.

Withdrawing acceptance of the Offer is an irrevocable act. Tendered OHB Shares for which the right of withdrawal has been exercised will not be deemed to have been tendered under the Offer following the withdrawal. However, OHB Shareholders tendering their shares under the Offer who have exercised their right of withdrawal may re-accept the Offer prior to the end of the Additional Acceptance Period as described in this Offer Document.

18. PAYMENT OF MONEY OR OTHER CASH-EQUIVALENT BENEFITS GRANTED OR PROMISED TO THE MEMBERS OF THE MANAGEMENT BOARD OR SUPERVISORY BOARD OF OHB AND POSSIBLE CONFLICTS OF INTEREST

No cash payments or any other cash-equivalent benefits have been granted or promised to the members of OHB's Management Board and the members of OHB's Supervisory Board by the Bidder or any person acting jointly with the Bidder within the meaning of section 2 para. 5 WpÜG in connection with the Offer. This excludes the payment of the Offer Price to the members of OHB's Management Board and to the members of OHB's Supervisory Board for any OHB Shares held by them that they tender into the Offer.

19. TAXES

The Bidder recommends that, prior to accepting this Offer, OHB Shareholders obtain tax advice on the tax consequences of accepting this Offer, including the potentially different tax treatment of proceeds from payments made pursuant to the Offer and from the payment of dividends, that takes their personal circumstances into account.
