Accurate as of: 16 December 2024

What is this product?

Type

- This product is a class of share of the Sub-Fund and is denominated in EUR. The Fund is an investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to the Luxembourg law of 17 December 2010 related to undertakings for collective investment (the "Investment Fund Law") transposing Directive 2009/65/EC as amended.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Term

The Sub-Fund will pursue its principal investment objective for a period of six (6) years (the "Principal Investment Period"). The manufacturer may not terminate it unilaterally. It may only be terminated unilaterally by the board of directors of the Fund or a general meeting of shareholders or may be automatically terminated at the maturity date in 2027, merged with another fund or adopt a new investment policy.

Objectives

Investment objective:

- The investment objective of this Sub-Fund is to provide an attractive level of risk adjusted return, measured in EUR, primarily through investing via a global portfolio of collective investment schemes (including other Morgan Stanley funds) in a variety of different types of investments (including corporate and governmental debt securities), including mutual funds, exchange traded funds (ETFs), commodity-linked investments and through financial derivative instruments and targeting a fixed level of income per annum. The Investment Manager will seek to manage risk within an annualised target volatility range of 4% to 8%. The Principal Investment Period will end on or around 27 July 2027. No guarantee or representation is made that the objective of the Sub-Fund will be achieved.

Investment policy:

- The Sub-Fund will invest in collective investment schemes and exchange traded funds across a spectrum of fixed income asset classes, including developed and emerging markets, investment grade, non-investment grade, high yield, inflation-linked and unrated securities.
- Equities shall not exceed 45% of the NAV of the Sub-Fund.
- Collectively non-investment grade securities and unrated securities will not exceed 25% of the Net Asset Value of the Sub-Fund.
- Equity investment will be through collective investment schemes and exchange traded funds in developed and emerging markets worldwide which may include closed-end Real Estate Investment Trusts (REITs) and open-ended collective investment schemes.
- The Sub-Fund may implement tactical views on commodities via exchange traded commodities (ETCs) which will not use embedded derivatives and which qualify as 'transferable securities' and/or eligible commodity linked notes.
- The Sub-Fund may hold ancillary liquid assets (i.e., bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets.

- The Sub-Fund may use derivative instruments for investment or efficient portfolio management purposes, including hedging.
- The Sub-Fund may not invest through single name securities.
- The Sub-Fund has an active investment strategy and is not managed in reference to a benchmark.
- The Sub-Fund will pursue the above investment policy for a period of 6 years, ending on or around 27 July 2027. After that date, the Sub-Fund will hold up to 100% of its assets in short term debt securities, ancillary liquid assets and cash equivalent for a period of six (6) months maximum.
- Given the objectives and risk and reward profile of this product, the recommended holding period is three (3) years.

Redemption and Dealing: Investors may redeem their shares on every full banking business day in Luxembourg.

Distribution Policy: Income will be paid in cash.

Additional information: Regardless of income and profitability, a fixed 2.25% of the initial issue price is distributed annually as dividends to investors starting July 2023. Such dividends will be paid out of available income and/or by way of reduction of capital if necessary.

Intended retail investor

In light of the Sub-Fund's investment objective, it may be appropriate for investors who:

- seek capital appreciation and income over the 3-year period;
- seek a balanced investment that focuses on those asset classes the Investment Manager finds tactically most attractive;
- accept the risks associated with this type of investment, as set out in section "Risk Profile / Risk factors" of the prospectus and section 6 "Risk Factors" in part A of the prospectus.

Investors should understand that they may not recover the amounts that they invest. Investors should read and understand the risk factors that are associated with an investment in the Sub-Fund, as explained in the "Risk Profile/ Risk factors" section of the Sub-Fund's supplement. Investors should consider their long-term investment goals and financial needs when making an investment decision about this Sub-Fund. The minimum investment is EUR 100.

Practical information

Depositary: Mitsubishi UFJ Investor Services & Banking (Luxembourg) S.A., 287-289, route d'Arlon, L-1150 Luxembourg, Grand Duchy of Luxembourg.

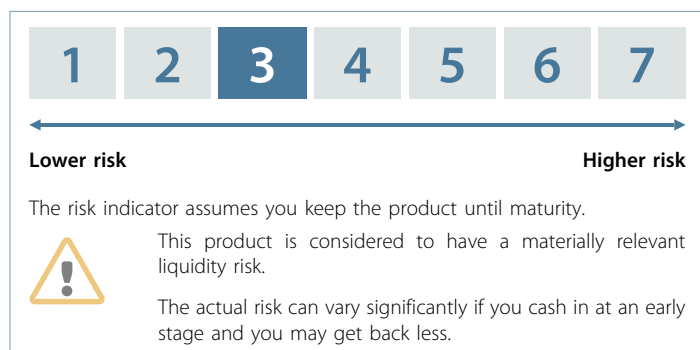

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. If permitted by the prospectus, shareholders are entitled to convert their shares in shares of another sub-fund/class of the Fund, as described under "Conversion between sub-funds / classes of shares" section 12 of the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office

of the Fund: 287-289, route d'Arlon L-1150 Luxembourg, Grand Duchy of Luxembourg.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last ten (10) years, by identifying, depending on the performance scenarios and as defined in Regulation (EU) 2021/2268, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of ten (10) years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one (1) year, which end at the end of that period of ten (10) years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 5 March 2021 and 31 October 2023.

Moderate: this type of scenario occurred for an investment between 1 October 2017 and 28 May 2020.

Favourable: this type of scenario occurred for an investment between 4 January 2019 and 31 August 2021.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

Recommended holding period		3 years	
Example Investment		€ 10,000	
Scenarios		if you exit after 1 year	if you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Unfavourable	What you might get back after costs Average return each year	€ 8,322 -16.8%	€ 8,256 -7.0%
Moderate	What you might get back after costs Average return each year	€ 9,948 -0.5%	€ 10,159 0.6%
Favourable	What you might get back after costs Average return each year	€ 11,128 11.3%	€ 11,341 4.9%

What happens if MUFG Lux Management Company S.A. is unable to pay out?

You are exposed to the risk that MUFG Lux Management Company S.A. might be unable to meet its obligations in connection with this product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in this product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including capital, credit, derivatives, emerging markets, liquidity, operational and commodity risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the Fund prospectus, available free of charge at https://www.morganstanley.com/im/publication/mshorizon/prospectus/prospectus_mshorizon_en.pdf.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	€ 388	€ 746
Annual cost impact*	3.9%	2.7%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 3.3% before costs and 0.6% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00%. We do not charge an entry fee. In case of conversion into shares of another class or another sub-fund, no conversion fee is charged but shareholders may be requested to bear the difference in subscription fee if higher.	up to € 0
Exit costs	2.00% maximum of your investment before it is paid out to you. An exit charge of up to 2% will be charged in the form of a diminishing Contingent Deferred Sales Charge ("CDSC") if you sell your shares within the first six (6) years following the launch of the Sub-Fund. It will decrease annually until such six (6) years period ends. For each redemption and subsequent subscription, a dilution levy of a maximum of 2% may apply on top and will benefit the existing or remaining investors, as opposed to the CDSC which will benefit the distributor.	up to € 200
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.85% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 185
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 3
Incidental costs taken under specific conditions		
Performance fees	0.00%. There is no performance fee for this product.	€ 0

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 3 years

The RHP has been defined by taking into account the above investment objective and policy and the risk and the reward profile. You should be prepared to stay invested at least until the maturity date. However, you can redeem your investment without penalty other than the exit costs at any time during this period, or hold the investment longer. Redemptions must be received by the registrar and transfer agent at least one bank business day before the valuation date until 12pm CET to be dealt with on the basis of the net asset value per share applicable on that valuation date. Redemptions received by the registrar and transfer agent after that cut-off time will be dealt with on the next valuation date. An exit charge of up to 2% will be charged in the form of a diminishing contingent deferred sales charge ("CDSC") if you sell your shares before maturity. It will decrease annually until maturity. For each redemption during the Principal Investment Period and subsequent subscription, a dilution levy of a maximum of 2% may apply. The dilution levy will be allocated to the assets of the Sub-Fund and will, therefore, benefit the existing or remaining investors, as opposed to the CDSC which will benefit the distributor or relevant sub-distributor. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
